

Your Journey, your path, your future!

Oh, the roads you'll go and the dreams you'll grow,
As you journey toward futures that are starting to show!

Will you head off to college and learn something new?
Will a career be the right road for you?

Will you help your community and make someone's day?
Will independence grow a little more each day?

You'll discover new talents and things you can do,
As you find out what pathways are just right for you.

You'll dream about futures and goals you can share,
Then map out the path that will help you get there.

Your family and teachers will help light the way,
But your goals and dreams will have the final say.

Secondary Transition is your map for what's new,
Leading to futures you'll build just for you.

So, pack up your dreams and head down the road,
Adventures await where your future unfolds!
