

**EXECUTIVE SUMMARY
WEST VIRGINIA BOARD OF EDUCATION**

Series 3, Athletics, Provisions Governing Contests

**West Virginia Secondary School Activities Commission
Proposed Changes in Rules and Regulations**

BACKGROUND

The majority of public schools and several private schools in West Virginia belong to the West Virginia Secondary School Activities Commission. Each year, the principals of member schools submit revisions to the rules and regulations. The submitted proposals are presented and voted upon at the annual Board of Control meeting. Any approved changes are then submitted to the West Virginia State Board of Education for its review and approval. The following proposals dealing solely with classification were presented at a special meeting of the Board of Control on October 24, 2024. The special meeting was held based on a decision rendered by the Review Board in August 2024.

PURPOSE

These amendments are brought forth to keep the West Virginia Secondary School Activities Commission current and updated on changes, trends and issues in the band and athletic programs.

These proposals will be distributed for public comment in November and December. The West Virginia Secondary School Activities Commission will present to the Board the comments received for its review at the January 2025 meeting.

The West Virginia Secondary School Activities Commission staff, Constitution and Bylaws Committee, and Board of Control respectfully request that the proposed rule changes to the West Virginia Secondary School Activities Commission Rules and Regulations Handbook be placed on public comment.

**WVSSAC
RULES AND REGULATIONS HANDBOOK
PROPOSED RULE CHANGES PASSED BY BOARD OF CONTROL**

PROPOSAL 1 (Vote: Yes – 38, No – 107)

Amend §127-3-10 – CLASSIFICATION

10.1. Each member high school shall be classified as either AAAA, AAA, AA, or A based on the total score given by the classification model that considers the factors of enrollment, location, and economics. The designation shall be done after the end of the second school month of the odd numbered year preceding the classification. For an explanation of the classification model, and how scores are assigned, see Appendix 1.

10.2. Classification of member high schools shall be determined every four years on the even numbered years and will remain in effect for a four-year period unless the school experiences a 20% change in enrollment using WVDE enrollment figures at the end of the second school month. Classification changes due to a 20% change in enrollment become effective next academic year.

10.3. A school may choose to compete in WVSSAC tournaments in any class above its classification providing proper notification is made to the WVSSAC prior to Friday of week 27 after classification has been approved by the Board of Directors. Approval of this option will be for a four-year period and will be effective for individual sports sponsored by the school.

10.4. The Board of Directors may structure the WVSSAC tournament series in each sport by classification (AAAA-AAA-AA-A). Each sport will be structured according to the level of interest and accommodation for tournament alignment. The WVSSAC will conduct a survey of the membership prior to any change of structure of any given sport.

10.5. If a consolidation of two or more member schools occurs during the classification period, the new member school will be reclassified based on the total score given by the classification model that considers the factors of enrollment, location, and economics.

10.6. No member school shall, based on the classification, be compelled to play more than one class up from where it would be classified in a three-class system based strictly on enrollment.

10.7. The WVSSAC Board of Directors is authorized to grant a waiver to a classification assignment when it determines the rule fails to accomplish the purpose for which it is intended.

RATIONALE: Keep what was voted on before, almost unanimously.

Wyatt O'Neil, Principal

Cameron High School

PROPOSAL 2 (Vote: Yes – 22, No – 113)

Amend APPENDIX 1

~~This considers the following factors: enrollment, location, and economics. These factors are given individual scores, which are then given a weighted aggregate total. All individual scores (scores for enrollment, location, and economics) are normalized using maximum-minimum normalization using feature scaling, wherein their values fall between 0-1. Individual scores are calculated in the following ways:~~

~~The enrollment score takes enrollment data and normalizes it on a scale from 0-1~~

- ~~• The location score is calculated by finding the distance from the school to the closest city with a population of 10,000 or more, then normalized between 0-1.~~
- ~~• The economic score is determined by first calculating a county score where the z-score of the county's median household income is added to the z-score of the county's poverty rate and the sum is normalized between 0-1.~~

~~For all schools located within single high school counties, the county economic score serves as the school economic score.~~

~~For all schools located within multi-high school counties, Direct Certified numbers on students eligible for free or reduced lunch are used to scale the county economic score. The scaling is accomplished by comparing the Direct Certified numbers of each individual school with the county average.~~

~~Weights are applied to each score that are determined based on qualitative assessment by the WVSSAC Competition Balance Committee. All county data (population, median household income, and poverty rate) are from the most recent US Census American Community Survey's Five Year Estimates and the distances are determined using Google Maps.~~

RATIONALE: The use of the competitive balance model was a lot of work for not much reward. Take out the 20% of the equation that does not add value to determining competitiveness. First, SES levels are not specifically indicative of the school's ability to produce competitive teams. Secondly, proximity to a city of 10,000 also does not indicate any increased or decreased ability for a school to produce competitive teams. For example, Fairmont is a city of 10,000 but offers no advantages or facilities or recreational leagues that one assumes will exist for a large city. Even division of classifications removes confusion and controversy about how schools were placed for competition.

Top athletes are anomalies in the general student population, therefore large schools have a greater total number of anomalies than a smaller school. Alignment by school enrollment maximizes the reliability of equality of competition due to similar student populations from which to draw athletes.

Jim Green, Principal
Fairmont Senior High School

PROPOSAL 3 (Vote: Yes – 19, No – 113)

Amend §127-3-10.4 – CLASSIFICATION

~~10.4 The Board of Directors may structure the WVSSAC tournament series in each sport by classification (AAAA-AAA-AA-A). Each sport will be structured according to the level of interest and accommodation for tournament alignment. The WVSSAC will conduct a survey of the membership prior to any change of structure of any given sport. All sports shall follow the approved classification system and all sports at each school will compete in the classification assigned to that school.~~

RATIONALE: The previous rule allowed for decisions to be made for classification and competition by a committee of individuals with no defined parameters for setting classification participation. Prime example of golf, cross country, track, soccer, wrestling, and tennis. The delineations were made for participation without use of the then approved competitive balance formula.

Jim Green, Principal
Fairmont Senior High School

PROPOSAL 4 (Vote: Yes – 94, No – 25) - PASSED

Amend §127-3-10.2 – CLASSIFICATION

10.2 Classification of member high schools shall be determined every ~~four~~ two years ~~on the even numbered years~~ and will remain in effect for a ~~four~~ two-year period unless the school experiences a 20% change in enrollment using WVDE enrollment figures at the end of the second school month. Classification changes due to a 20% change in enrollment become effective next academic year.

RATIONALE: We believe that changing the reclassification period to two years vs four allows for more accuracy within the system. We understand that enrollment comes in waves. This change prevents member schools from being classified (both up and down) where they do not belong for a long period of time.

Orie Pancione, Principal
Frankfort High School

PROPOSAL 5 (Vote: Yes – 63, No – 69)

Amend §127-3-10.1 and 10.4 – CLASSIFICATION

~~10.1~~ Each member high school shall be classified as either AAAA, AAA, AA, or A based on the total score given by the classification model that considers the factors of enrollment, location, and economics. The designation shall be done after the end of the second school month of the ~~odd~~-numbered year preceding the classification. ~~For an explanation of the classification model, and how scores are assigned, see Appendix 1.~~

10.4. Sports using 4 classes shall be separated using the following model:

AAAA	Enrollment of 1000 or more
AAA	Enrollment of 650 – 999
AA	Enrollment of 400 – 649
A	Enrollment of 399 or less

10.1.b. Sports using 3 classes shall be separated using the following model:

AAA	Enrollment of 800 or more
AA	Enrollment of 450 - 799
A	Enrollment of 449 or less

10.1.c. Sports using the 2 classes shall be separated using the following model:

AAAA/AAA	Enrollment of 700 or more
AA/A	Enrollment of 699 or less

RATIONALE: The present rule has spawned a series of appeals to classification, which has resulted in a Board of Review mandate to move schools down a classification. This affected the landscape immediately in football. This proposal would keep our present structure of classes for the 4, 3 , and 2 class systems, and simplify the cutoff numbers while maintaining a reasonable balance for each system of classification.

Jim Crawford, Principal
George Washington High School

PROPOSAL 6 (Vote: Yes – 1, No – 118)

Amend §127-3-10.1 – CLASSIFICATION

10.1 Each member high school shall be classified ~~as either~~ using the Classification Chart:

<u>Minimum Number of Schools</u>	<u>Division of Classifications</u>	<u>Range of Schools in each Class</u>
48	II	24-36
72	III	24-32
98	IV	24-31
124	V	24 -30

~~AAAA, AAA, AA, or A based on the total score given by the classification model that considers the factors of enrollment, location, and economics. The designation shall be done after the end of the second school month of the odd numbered year preceding the classification. For an explanation of the classification model, and how scores are assigned, see Appendix 1. based upon the AVERAGE Daily Attendance as certified by principals on the WVEIS EOY Attendance Collection. Member schools who are exempt from WV §18-8-1. Compulsory school attendance shall be classified based upon EOY enrollment. The classification rankings shall be distributed to member schools prior to week 5 of the odd numbered year preceding the classification (immediate for this cycle).~~

RATIONALE: Classification should not be an arbitrary designation decided by the Board of Directors. Each classification should be ranked and equally divided based upon the number of schools participating. The AVERAGE Daily Attendance is a more accurate assessment of students who are available to participate in activities.

David Decker, Principal
Lincoln High School

PROPOSAL 7 (Vote: Yes – 13, No – 102)

Amend §127-3-10.7 – CLASSIFICATION

~~10.7 The WVSSAC Board of Directors is authorized to grant a waiver to a classification assignment when it determines the rule fails to accomplish the purpose for which it is intended.~~

RATIONALE: Remove appeal for classification.

Trent Sherman, Principal

PROPOSAL 8 (Vote: Yes – 39, No – 90)

Amend §127-3-10.1 – CLASSIFICATION

~~10.1. Each member high school shall be classified as either AAAA, AAA, AA, or A for all sports that contain four classifications based on the total score given by the classification model that considers the factors of enrollment, location, and economics on enrollment. The designation shall be done after the end of the second school month of the odd numbered year preceding the classification. For an explanation of the classification model, and how scores are assigned, see Appendix 1. based on October 2024 enrollment and become effective for the 2025-2026 school year. Classes shall be divided as evenly as feasible with some discretion afforded to the Board of Directors. Given that no school shall be classified with a school that has a difference of more than 1000 students. There shall be no appeals of classification granted. If this proposal passes, Section 127-3-10.7 would be deleted.~~

RATIONALE: The current structure related to appeals renders the competitive balance formula ineffective. Appeals are untenable. They have a yearly impact on classification, conference alignment, scheduling playoff points, and playoff seeding.

Brian Barth, Principal
Nitro High School

PROPOSAL 9 (Vote: Yes – 9, No – 89)

Amend APPENDIX 1

~~For all schools located within single high school counties, the county economic score serves as the school economic score.~~

All county data (population, median household income, and poverty rate) are from the most recent US Census American Community Survey's Five Year Estimates and the distances are determined using Google Maps. Each member high school shall be classified as either AAAA, AAA, AA, or A based on enrollment figures in grades 9, 10, 11, and 12 at the end of the second school month of the odd numbered year preceding the classification.~~

RATIONALE: The former classification rule included both an economic score and a location score that did not serve all student equitably as it was intended to do. PikeView High School students are not benefited by their proximity to Beckley. Traveling to Beckley requires a trip up Interstate 77, which is a toll road, and our students rely much more on their proximity to Princeton and other areas south of our school that do not offer near the opportunities that Beckley supposedly has. The economic score that was assigned to our area was also a concern as it had us with a score higher than many more urban and obviously more affluent, resource rich areas. We feel that the fairest way to determine classification is by enrollment numbers, especially considering the new transfer rule. We also feel that as a result of the transfer rule that reclassification should take place every other year. The enrollment number should not include students that are expelled or in alternative school as they are not eligible to participate in athletics.

Anna Lilly, Principal

PikeView High School

PROPOSAL 10 (Vote: Yes – 75, No – 59)

Amend §127-3-10 – CLASSIFICATION AND APPENDIX 1 - PASSED

§127-3-10. Classification.

10.1. Each member high school shall be classified as either AAAA, AAA, AA, or A based on the ~~total score given by the classification model that considers the factors of enrollment, location, and economics~~ modified enrollment, which is calculated by calculating each school's enrollment and the number of Direct Certified students. Each student receiving Direct Certification services will only count as 50% towards the modified enrollment. The designation shall be done after the end of the second school month of the odd numbered year preceding the classification. For an explanation of the classification model, and how scores are assigned, see Appendix 1.

10.3. A school may choose to compete in WVSSAC tournaments in any class above its classification providing proper notification is made to the WVSSAC prior to Friday of week 27 after classification has been approved by the Board of Directors. Approval of this option will be for a ~~four~~ two-year period and will be effective for individual sports sponsored by the school.

10.5. If a consolidation of two or more member schools occurs during the classification period, the new member school will be reclassified based on the total score given by the classification model that considers the factors of enrollment, ~~location, and economics~~ and direct certification.

10.8 Each member school will receive all direct certified data, leading up to the re-classification process

APPENDIX 1

~~This considers the following factors: enrollment location and economics. These factors are given individual scores, which are then given a weighted aggregate total. All individual scores (scores for enrollment, location, and economics) are normalized using maximum-minimum normalization using feature scaling, wherein their values fall between 0-1. Individual scores are calculated in the following ways:~~

- ~~• The enrollment score takes enrollment data and normalizes it on a scale from 0-1.~~
- ~~• The location score is calculated by finding the distance from the school to the closest city with a population of 10,000 or more, then normalized between 0-1.~~
- ~~• The economic score is determined by first calculating a county score where the z-score of the county's median household income is added to the z-score of the county's poverty rate and the sum is normalized between 0-1.~~

Enrollment: The enrollment score is calculated by the second month report every two years

- ~~• For all schools located within single high school counties, the county economic score serves as the school economic score.~~
- ~~• For all schools located within multi-high school counties, Direct Certified numbers on students eligible for free or reduced lunch are used to scale the county economic score. The scaling is~~

accomplished by comparing the Direct Certified numbers of each individual school with the county

Every two years, the enrollment data will be collected from the second month count. Additionally, the direct certification data will be calculated and used to create a “modified enrollment.” Students receiving direct certification services will count as 50%, while each student not receiving direct certification services will count as 100%.

Example:

Enrollment 1000 – Students receiving direct certification services 300. $300 \times 0.5 = 150$

1000 (enrollment) – 150 (half of students receiving DC services) = 850 modified enrollment.

For sports with 4 classes:

AAAA- 900+ (16 Schools)

AAA- 899-500 (30 Schools)

AA- 499-250 (37 Schools)

A- 249 and below (41 Schools)

*Must have a minimum of 16 schools in each classification or the teams from the class below get bumped up

*The same data will be used to calculate the classifications in sports that have 2 and 3 classes.

RATIONALE: We believe that socioeconomics plays a major role in competitive balance. The challenge is finding a simple way to accurately measure poverty and affluence. Socioeconomics is the driving force behind access to things like travel ball, specialized training, golf courses, tennis facilities and many other things that can make an impact on athletics. Free and reduced lunch has long been the standard used in education to measure poverty and these numbers are specific to each school. If we use only enrollment to determine classification, then it ignores the major income and competitive balance disparities that exist in our state. By using predetermined brackets, it takes away the mystery that occurs in the process. Reclassifying every two years will ensure that we are using the most up to date and accurate data.

John Hayes, Principal
Spring Valley High School

PROPOSAL 11 (Vote: Yes – 18, No – 90)

Amend §127-3-10.4 – CLASSIFICATION

10.4The Board of Directors may structure the WVSSAC tournament series in each sport by classification (AAAA-AAA-AA-A). Each sport will be structured according to the level of interest and accommodation for tournament alignment. The WVSSAC will conduct a survey of the membership prior to any change of structure of any given sport. Wrestling will be classified by two classes while following the four-class system. A and AA will wrestle together. AAA and AAAA will wrestle together.

RATIONALE: Wrestling is arguably the most unbalanced sport in regard to competition and the size of classes. In a sport where four qualifiers come from each region, having a region of only six teams in AAA while there are regions three times the size of this A/AA provides an unfair advantage to larger schools. There are currently 66 schools wrestling in A/AA. Regional numbers are as follows: Region 1 – 18, Region 2 – 6, Region 3 – 10, Region 4 – 7. By using the same classifications for wrestling as boys and girls basketball, baseball, softball, and volleyball, we will be able to have more balanced competition in one of the fastest growing sports. This change would move 19 schools from A/AA to AAA/AAAA. This would put 47 wrestling schools in A/AA and 51 in AAA/AAAA, creating a much more balanced classification in regard to wrestling.

2.4. The principal has the authority to designate a member of the faculty who must supervise all interscholastic activities.

2.5. The principal is responsible for adequate team and crowd control measures at home contests in which the school participates, assuring that the school's participants and fans conduct themselves in a proper manner, and assuring that all fans and officials are provided adequate protection. This card shall allow admittance to any WVSSAC sponsored event. This admittance will be by presentation of the WVSSAC Courtesy Card and photo identification. Spouses of deceased principals and assistant principals shall have a WVSSAC permanent Courtesy and Identification Card with the same admittance stipulations transferred to them upon request to the WVSSAC.

2.12. WVSSAC Courtesy and Identification Cards shall be honored at all events involving WVSSAC member schools with the exception of state tournaments.

3.1. The Athletic Participation/Parental Consent/Physician's Certificate Form allows for annual updates rather than a complete physical examination.

3.2. A student shall not be permitted to engage in interscholastic practice or participate in an interscholastic contest until that student has filed with the principal a completed Athletic Participation/Parental Consent/Physician's Certificate Form. This form must be signed by all parties: student, parent(s), physician. Consent and approval for sport(s) in which a student is requesting participation must be approved by both parent and physician.

127CSR3

Star games upon conclusion of each season without loss of athletic eligibility for the balance of that year.

§127-3-5. Awards.

5.1. Only a member school or a school sponsoring a sanctioned event may give the following awards to a student or team: medal, trophy, cup, certificate, ribbon, plaque, unattached letter, unattached chevron, or any similar award.

5.2. A student may accept on an individual or team basis the above specified awards in the following situations:

5.2.a. from a member school for participation;

5.2.b. in a sanctioned event;

5.2.c. in a non-sanctioned event, at any time in the following sports: cheerleading, cross country, golf, swimming, tennis, track, or wrestling;

5.2.d. in a non-sanctioned event, but not during the school sports season for the following sports: football, basketball, volleyball, baseball, lacrosse, softball, or soccer.

5.3. A student may not receive the following awards with a retail value that exceeds \$100.00:

A member of a private/parochial school faculty, substitute teacher, regardless of WVDE certification status, shall be allowed to coach an athletic team. An authorized certified individual may coach if they meet all of the requirements in §127-3-6.4.

6.2. A public school substitute teacher is defined as a person who has met the licensure requirements as specified by the West Virginia Board of Education (WVBE) and has been approved

as a substitute teacher of that county board of education. Private/parochial school substitutes must meet requirements of respective governing bodies.

6.3. A college student fulfilling teacher training responsibilities as a student teacher may be assigned certain coaching responsibilities during that period of training. This assignment will be administratively consistent with the student teacher's role in the classroom and shall be approved by the county board of education or the governing body of a private/parochial school. The student teacher will work directly under the supervision of the appointed coach or assistant coach.

6.4. An authorized certified coach must meet the following requirements:

6.4.a. The coach is employed under a contract with a county board of education which specifies a rate of pay equivalent to the rate for professional educators who accept similar duties as extra duty assignments and which provides for liability insurance associated with the activity;

6.4.b. The coach has successfully completed WVSSAC-approved training: Sport Science, Sport First Aid, and WV Component (14 hours of instruction and test) and has received WVDE Authorization;

6.4.c. Coaching authorizations are for one year.

6.5. The head coach shall be required to attend any sports rules clinic in the coaching assignment which is sponsored by this Commission. Schools failing to have a head coaching position filled at the time of the clinic will be required to have a school representative present at the rules clinic.

6.6. All coaches, athletic directors, and band directors of member schools who, upon retirement from a full time teaching, school service, or administrative position at a member school, have at least 20 years of service as a coach, athletic director, band director, or combination thereof shall receive a lifetime WVSSAC Courtesy and Identification Card. This card shall allow admittance to any WVSSAC sponsored event. This admittance will be by presentation of the WVSSAC Courtesy and Identification Card and photo identification. Spouses of deceased coaches, athletic directors, and band directors shall have a WVSSAC permanent Courtesy and Identification Card with the same admittance stipulations transferred to them upon request to the WVSSAC.

§127-3-7. Out-of-Season Coaching.

7.1. Philosophy -- A student should have the opportunity to engage voluntarily in school athletic activities provided that the student is eligible, that such activities do not interfere with the student's educational development and their activities do not conflict with the principles of wholesome amateur athletics. The WVSSAC discourages the exploitation of students by overzealous individuals and organizations who attempt to impose an obligation or pressure on the student. Athletic participation should be used for the pleasure and satisfaction that is derived from athletic competition in a variety of experiences.

7.2. With principal approval, each sport program may use 32 flex-days from Monday of Week 49 through Friday of Week 48 of the next academic year. A flex-day is a day, outside the regular season and when a coach may have sport-specific contact with student athletes. Flex-days shall not be

APPENDIX 1

This considers the following factors: enrollment location and economics. These factors are given individual scores, which are then given a weighted aggregate total. All individual scores (scores for enrollment, location and economics) are normalized using maximum-minimum normalization using feature scaling, wherein their values fall between 0-1. Individual scores are calculated in the following ways:

- The enrollment score takes enrollment data and normalizes it on a scale from 0-1.
- The location score is calculated by finding the distance from the school to the closest city with a population of 10,000 or more, then normalized between 0-1.
- The economic score is determined by first calculating a county score where the z-score of the county's median household income is added to the z-score of the county's poverty rate and the sum is normalized between 0-1.

Enrollment: The enrollment score is calculated by the second month report every two years

- For all schools located within single high school counties, the county economic score serves as the school economic score.
- For all schools located within multi-high school counties, Direct Certified numbers on students eligible for free or reduced lunch are used to scale the county economic score. The scaling is accomplished by comparing the Direct Certified numbers of each individual school with the county

Every two years, the enrollment data will be collected from the second month count. Additionally, the direct certification data will be calculated and used to create a "modified enrollment." Students receiving direct certification services will count as 50%, while each student not receiving direct certification services will count as 100%.

Example:

Enrollment 1000 – Students receiving direct certification services 300. $300 \times 0.5 = 150$

1000 (enrollment) – 150 (half of students receiving DC services) = 850 modified enrollment.

For sports with 4 classes:

AAAA- 900+ (16 Schools)

AAA- 899-500 (30 Schools)

AA- 499-250 (37 Schools)

A- 249 and below (41 Schools)

*Must have a minimum of 16 schools in each classification or the teams from the class below get bumped up

127CSR3

*The same data will be used to calculate the classifications in sports that have 2 and 3 classes.
