4A.2 EMPLOYMENT OF SUBSTITUTE TEACHERS

The Board recognizes the need to procure the services of substitute teachers in order to continue the operation of the schools as a result of the absence of regular professional personnel.

The Superintendent, subject to approval of the Board, may employ and assign substitute teachers to any of the following duties:

- A. to fill the temporary absence of any teacher or an unexpired school term made vacant by resignation, death, suspension, or dismissal;
- to fill a teaching position of a regular teacher on leave of absence; and
to perform the instructional services of any teacher who is authorized by law to be absent from class without loss of pay, provided the absence is approved by the Board in accordance with the law.
The substitute shall be a duly certified teacher.

Long-Term Substitute Teacher

A long-term substitute is a substitute employee who fills a vacant position that the Superintendent expects to extend for at least 30 consecutive days and is either

- A. listed in the job posting as a long-term substitute position of over 30 days, or listed in a job posting as a regular, full-time position and is not filled by a regular, full-time employee.

Other than a retired teacher, a substitute teacher, who is approved by the Board to serve in a long-term position, shall qualify for PEIA benefits.

A substitute shall have standing to file a grievance only on matters related to days worked or when there is a violation, misapplication, or misinterpretation of a statute, policy, rule, or written agreement relating to such substitute.

A day-to-day substitute teacher shall not earn sick leave and shall not be paid for days when students are not required to attend school.

A retired teacher may substitute a maximum of 140 days per year and may substitute in the same fiscal year in which he/she retires. However, a retired teacher may not substitute more than 140 days in the same fiscal year in which he/she retires. The total number of days worked shall be determined by dividing the total number of hours worked by the standard number of hours that a full-time teacher works per day (7.5 hours).

The Personnel Department shall provide principals with a current list of all professional substitutes as they are hired.

The automated calling system shall be used to call substitute teachers for day-to-day assignments. The principal may create a preferential list of substitutes to be called for his/her school. However, a teacher certified in the specialization applicable to the assignment must be utilized before any other substitute is called.

The principal may request a particular substitute for a long-term assignment of no more than 30 days. However, the Personnel Department must be contacted so the position can be posted and filled through the standard hiring procedures if the assignment is going to last more than six (6) weeks.

Each substitute teacher is responsible for signing in on the appropriate form at the work site each day. The principal is responsible for submitting the substitute teacher's name on the appropriate payroll report for each day worked.

A substitute teacher, who has been assigned as a classroom teacher in the same classroom continuously for more than one-half ($\frac{1}{2}$) of a grading period and whose assignment remains in effect two (2) weeks prior to the end of the grading period, shall remain in the assignment until the grading period has ended, unless the principal of the school certifies that the regularly employed teacher has communicated with and assisted the substitute with the preparation of lesson plans and monitored student progress or has been approved to return to work by his/her physician.

Critical Need and Shortage Policy

A retired teacher may accept employment as a substitute teacher for an unlimited number of days each fiscal year without affecting the monthly retirement benefit to which the retiree is otherwise entitled provided no non-retired substitute teacher who holds the appropriate certification is available to accept the assignment within the parameters of this policy. A retired teacher may be employed as a substitute teacher in an area of critical need and shortage on an expanded basis only when no other teacher who holds certification and training in the area and who is not retired is available and accepts the substitute assignment.

When a retired teacher is employed as a substitute to fill a vacant position, the county board shall continue to post the vacancy until it is filled with a regularly employed teacher who is fully certified or permitted for the position. The position vacancy shall be posted electronically and easily accessible to prospective employees. Provided that:

- A. The posting is only required to occur once at the beginning of the year and once mid-year;
- B. This subdivision does not apply when filling a teaching position of a regular teacher on leave of absence; and
- C. This subdivision does not apply when a position is filled with a regularly employed teacher who is fully certified or permitted for the position but the teacher is not available at the time he or she accepts the position.

Area of critical need and shortage for substitute teachers' means an area of certification and training in which the number of available substitute teachers in the county who hold certification and training in that area and who are not retired is insufficient to meet the projected need for substitute teachers.
