

2026 West Virginia Summer Learning

Statewide Overview of County-Reported Information

The 2026 summer learning initiatives across West Virginia provide rigorous academic intervention and enrichment, ensuring students remain on a trajectory of growth. Based on the consolidated technical data from participating counties, the following programmatic priorities have been identified:

- Literacy
- Numeracy
- Credit Recovery
- Special Education
- Enrichment

Primary Program Models:

- **In-person:** Traditional campus-based instructional delivery.
- **Virtual:** Remote learning via designated digital platforms.
- **Blended/Both:** Hybrid configurations utilizing both physical site attendance and online modules.

Grade-Level Specific Initiatives

K-5/Elementary Focus

Elementary programs are characterized by intensive focus on the Third Grade Success Act (TGSA), providing mandated interventions in reading and mathematics.

6-8/Middle School Focus

Middle school programming emphasizes academic maintenance and transition preparedness. While some districts utilize virtual models for middle level enrichment, in-person sites focus on ELA and Math reinforcement to prevent the summer learning slide. Transition activities are designed to facilitate the shift from elementary to middle school and middle school to high school.

9-12/High School Focus

High school initiatives are Credit Recovery and Career Technical Education (CTE) exploration.

Data Collection and Measurement Standards

Counties are required to maintain comprehensive data records for state-level evaluation, including:

- **Enrollment and Attendance:** Documentation of daily participation levels.
- **Credit Recovery Performance:** Metrics on courses attempted versus credits successfully restored.
- **Retention Rates:** Measurement of student persistence throughout the program duration.
- **CTE Engagement:** Tracking participation in technical education modules.
- **Measurement of Student Growth:** Objective analysis of academic progression based on pre- and post-program diagnostics.

Report prepared by the WVDE Office of Academic Support, May 22, 2026.
