WV PEAKS, which is an acronym for Providing Educational Assessment Knowledge and Skills, is an assessment literacy initiative of the West Virginia Department of Education Assessment Services. Its purpose is to provide educators with professional learning opportunities and resources regarding the use of available assessment tools to support instruction and improve student learning and achievement.

WV PEAKS lives online as a Microsoft Team. There you will find videos, PowerPoints and more about the various assessments the Assessment staff provides as well as information regarding Interim Assessments, Diagnostic Assessments, the Lexile Framework for Reading, the Quantile Framework for Mathematics and national assessments. The WV PEAKS Team is a place where you can connect with the WVDE Assessment staff and other teachers from around the state.
