

West Virginia General Summative Assessment Grades 3-8 | *An Informational Guide for Parents/Guardians*

This informational guide provides information regarding the West Virginia General Summative Assessment, including a breakdown of each content area test. The mathematics and English Language Arts (ELA) tests are computer adaptive, which means the tests adapt to each individual student based on whether the student answers the questions correctly. The science test is a matrix designed computer adaptive test, which means each student will see items covering a portion of the grade-band standards. To review items similar to those students may see on the assessment, we encourage you take a practice test by visiting <https://wv.portal.cambiumast.com/families.html>.
