West Virginia Governor's Computer Science Institute

Discover the Power of
Problem-solving, Coding, and Computational Thinking!

WVU Tech
July 6-12, 2026 | Beckley, WV

Think, Code, Build: Empowering Leaders of a High-Tech Future

This institute is designed for 9th and 10th graders of all skill levels, from those just starting out, to those with some prior experience.

What you will gain:

- **Master essential computer science skills:** Through focused training and practical exercises using real-world applications. No prior coding experience is necessary!

- **Collaborate and innovate:** Work with peers to bring your project ideas to life.

- **Develop a portfolio-worthy project:** Showcase your problem solving skills and creativity.

READY TO LEVEL UP? WE CAN'T WAIT TO SEE WHAT YOU CREATE! → **wvde.us/gov-schools**
