Michele L. Blatt, Ex Officio
State Superintendent of Schools
West Virginia Department of Education

Introduction

In compliance with the provisions of W. Va. Code §18-5-48, the West Virginia Department of Education (WVDE) conducts an annual survey to obtain information from the county boards of education, the multi-county vocational centers, public charter schools, and the West Virginia Schools for the Deaf and the Blind (WVSDB) regarding the safety and security measures implemented to secure its school facilities. It is important to note that all safety and security measures implemented in the state's public schools are a result of local commitment and investment. For the purpose of this report, the data obtained through the survey and included herein has been organized and prioritized to provide a comprehensive view of not only the school safety and security measures that were implemented for SY 2024-2025, but also the Local Education Agencies' (LEA) funding requests for additional measures necessary to provide a more secure learning environment for West Virginia's students.

Number of West Virginia Public Schools 2024-2025	
Primary Schools	30
Elementary Schools	339
Middle Schools	153
Secondary Schools	115
County Career Technical Centers	22
County Alternative Schools	14
Multi-County Technical Centers	7
West Virginia Schools for the Deaf and the Blind	1
Public Charter Schools	6
Total Number of West Virginia Public Schools	687

Definitions

Access Controls: Systems used to control entry into or within a facility. (Examples: Card Readers, Key Fobs, and Biometric Systems)

Communication and Coordination: Systems used to translate critical information between safety and security stakeholders or to align and organize responses. (Examples: Radios, Intercoms, Panic Buttons, Mobile Notification Applications, and Rapid Information Access)

FTE: Unit of measurement defining a full-time employment position as a whole or in partial equivalents. (Example: a single full-time (1.0) and two half-time (0.5) positions would be equivalent to 2.0 full-time equivalent positions)

Physical Security Upgrades: The construction or installation of enhancements that physically alter or add to a facility. (Examples: Safe School Entries, Fencing, Barriers, Windows, Doors, Door Hardware, Window Security Film, and Classroom Door Barricades)

PRO: A Prevention Resource Officer is a cooperative effort between schools and law enforcement to improve students' attitudes and knowledge of criminal justice and law enforcement; prevent kids from committing crimes; mentor youth with law enforcement officers to provide a safer school environment; and combine safety and child advocacy, thereby ensuring a better school experience for all West Virginia students. A PRO is a sworn law enforcement officer. (*As defined by the West Virginia Division of Administrative Services*)

Safety and Security Measures: Action taken by a county board of education, a public charter school, or multi-county vocational center that improves the security of a school facility and the safety of the students within such facility, including, but not limited to, hiring a school resource officer, installing weapon detection systems, and/or upgrading facility doors or windows. (*W. Va. Code §18-5-48(b)*)

Safe School Entries (mantrap): A system of doors and barriers that physically control access to a facility and interactions with visitors, staff, and students. A safe school entry provides a monitored single point of entry and exit that limits multiple points of entry vulnerability.

Security Officers: Any staff member employed by law enforcement or the county to provide safety and security services. (Examples: PRO/SRO, Security Guards, and County Safety Directors)

SRO: School Resource Officers are sworn law enforcement officers who are a part of a local law enforcement agency but are assigned to a school district to provide protective services. These officers become integral to the school environments they serve, building meaningful relationships with school employees and students.

Surveillance and Monitoring: Systems used to visually observe a school facility or bus, which may include the capacity to recognize and make alerts based on facial recognition capabilities. (Examples: Cameras, Facial Recognition, and Alarm Systems)

Training and Preparedness: Systems put in place that train staff and students in current emergency response practices, identify vulnerabilities, and maximize resource accessibility. (Examples: Emergency Drills, Training, and Planning)

Weapon Detection Systems: Systems used to physically or intelligently detect weapons as people approach or enter a facility. (Examples: Metal Detectors and Artificial Intelligence Weapon Detection)

Prioritized Breakdown for School Safety and Security Measures

Priority One – Safe School Entries (Pursuant to W. Va. Code §18-5-48(c))

Total number of schools with safe school entries (mantraps):	401
Total number of schools with safe school entries (mantraps) still needed:	232
Total amount requested for safe school entries (mantraps):	\$52,302,436

Priority Two – Prevention and Resource Officers

School Resource Officer (SRO) | Prevention Resource Officer (PRO) | Full-Time Equivalent (FTE)

Total number of schools with a full-time SRO in 2024-2025:	97
Total number of schools with a part-time SRO in 2024-2025:	82
Total number of SROs needed, including part-time services (Reported as FTE):	190.5
Total amount requested for the needed SROs based on an average cost of \$92,000	\$17,526,000
Total number of schools with a full-time PRO in 2024-2025:	70
Total number of schools with a part-time PRO in 2024-2025:	43
Total number of PROs needed, including part-time services (Reported as FTE):	143
Total amount requested for the needed PROs based on an average cost of \$92,000	\$13,156,000
Total amount requested for SROs and PROs:	\$30,682,000 <i>(Annual Recurring Cost)</i>

Priority Three – Window and Door Security Upgrades

Total number of schools needing window and door security upgrades (Does not include main secure entries):	182
Total amount requested for window and door security upgrades:	\$35,268,500

Priority Four – Weapon Detection Systems

Total number of schools with a weapon detection system:	83
Total number of schools needing weapon detection systems:	188
Total amount requested for physical weapon detection systems:	\$8,197,940
Total amount requested for technology-based weapon detection systems:	\$13,524,000
Total amount requested for weapon detection systems:	\$21,721,940

Priority Five – Security Lighting

Total number of schools needing additional security lighting:	97
Total amount requested for security lighting:	\$6,131,545

Prioritized Breakdown for School Safety and Security Measures continued

Priority Six – Security Barriers

Total number of schools needing additional security bollards, checks, or fencing:	147
Total amount requested for security barriers:	\$6,842,500

Priority Seven – “Other” Security Needs

Other safety and security needs include county security directors, access controls, communication systems, event security, signage, improved access roads, and other miscellaneous needs:	
Total amount requested for “other” security needs:	\$67,239,055

Priority Eight – Security Cameras

Total number of cameras needed to provide video coverage in classrooms, corridors, gyms, dining areas, auditoriums, entries, outdoor areas, and other uncovered spaces:	13,573
Total amount requested for security cameras:	\$30,336,178

Local Expenditures and Requested State Funds for Safety and Security Measures

	Categories of Newly Implemented Measures in SY 2023-2024								2024-2025 Local Expenditures Total local funds spent and specifically tagged in WVEIS under the safety and security codes, including the cost of existing and new measures.	2025-2026 Total Request for Safety and Security Measures from State Funds
	Physical Security Upgrades	Surveillance and Monitoring	Access Controls	Communication and Coordination	Training and Preparedness	Weapon Detection Systems	Security Officers and Staff	No New Systems Reported		
County Boards of Education										
Barbour County	X			X					\$7,479	\$1,533,692
