State Superintendent of Schools
West Virginia Department of Education

Foreword

Dear Early Childhood Stakeholders,

One of the keys to creating a world-class educational system for the state of West Virginia includes having a holistic understanding of the children who enter our state education system, either during pre-k or kindergarten. Building on the foundations provided by the Ready, Set, Go! West Virginia Comprehensive Model for School Readiness and Transitions, we know that schools are but one entity utilized to support children as they transition into the state's early learning programs. West Virginia's comprehensive approach to school readiness includes not only schools, but early learning programs, communities, regions, and state systems.

As a result of continued collaboration between the above entities, the 2014 West Virginia School Readiness Profile is provided to summarize early childhood services available to children prior to first grade. This Profile is essentially a roadmap inclusive of information that can be used by county collaborative early childhood teams to make data driven decisions and create school readiness goals at the local level.

Based on the continued collaboration between the West Virginia Department of Education's (WVDE) Office of Early Learning (OEL), the West Virginia Department of Health and Human Resources Bureau for Children and Families, and West Virginia Head Start Programs, the 2014 Profile includes snapshots of aggregated county and state-level information. The WVDE OEL, along with the WVDE Office of Data Management and Analysis and Office of Legal Services, have worked diligently to produce the 2014 West Virginia School Readiness Profile. This publication includes multiple forms of programmatic and child outcome data which can be used by county collaborative early childhood teams to gain a stronger understanding of the status of children and programming available prior to first grade entry.

I am excited to share this profile with you as we move forward in our journey of ensuring "One Voice, One Focus: All Students Achieving" in West Virginia. Together, we can positively impact college and career readiness for all students by working collaboratively to close the literacy achievement gap by third grade and ultimately raise the high school graduation rate.

Sincerely,

Michael J. Martirano, Ed.D.
State Superintendent of Schools

West Virginia Department of Education Office of Legal Services

West Virginia Department of Education Office of Special Programs

West Virginia Head Start State Collaboration Office

West Virginia Department of Health and Human Resources,
Division of Early Care & Education

Purpose/Introduction

The intent of the 2014 West Virginia School Readiness profile is to provide those who serve on county collaborative early childhood teams with various forms of data to make informed decisions about the scope, intensity, and quality of early childhood programming available at the local level. Other early childhood leaders and stakeholders may also benefit from use of this document when used as a resource to learn more about a specific county or counties.

The data in this profile is provided to help county collaborative early childhood teams align their efforts with the ***Ready, Set, Go! WV Comprehensive Framework for School Readiness***. This framework includes an approach that focuses on how the state and local communities, schools, and programs can offer support and resources for families and children prior to and during their transition into school. The availability of access to WV Universal Pre-K and WV Kindergarten also provides opportunities for children to build solid foundations and positive dispositions to learning.

As a result, a wealth of data are now available to the WVDE and collaborative partners regarding both programmatic and child outcomes of the WV Universal Pre-K Program. Kindergarten health entry data, along with attendance for WV Universal Pre-K and Kindergarten programs, are also available and included in the profile. These data can be shared to make decisions regarding strategic planning, programming, curriculum, professional development, and other components of a comprehensive early childhood education approach.

This edition of the WV School Readiness Profile provides information for individual counties as they continue to refine practices that support school readiness efforts throughout their early childhood and early elementary programs. The intent of this resource is not to dictate school readiness goals for county collaborative early childhood teams, but instead to provide data to assist teams as they develop school readiness goals.

Defining School Readiness in WV

School readiness is a process of assuring children have access to the best available resources prior to entering first grade. Available resources support children and their families, and focus on maximizing children's holistic development from birth. Acknowledging that each child's development is significantly affected by previous experiences, school readiness also entails the capacity of schools and programs to welcome families and be prepared to serve all children effectively within the developmental domains of health and physical development, social and emotional development, language and communication, cognition and general knowledge, and individual approaches to learning.

To support school readiness efforts and assure the use of developmentally effective methods for children prior to entering first grade, the ***Ready, Set, Go! West Virginia Comprehensive Framework for School Readiness*** is utilized in West Virginia. This comprehensive framework includes an approach that focuses on how the state and local communities, schools, and programs can offer support and resources for families and children prior to and during their transition into school. Programs serving children in Early Learning Readiness grades (WV Pre-K and Kindergarten) also provide opportunities for children to build solid foundations and positive dispositions to learning.

What is Ready, Set, Go! WV?

Ready, Set, Go! WV is a framework to help individuals understand and support the various transitions in which young children engage prior to and after school entry. Originally established to support kindergarten transition efforts, Ready, Set, Go! WV was expanded in 2014 to align with WV Governor Earl Ray Tomblin's assertion that all young children should be afforded opportunities to transition successfully into and out of early childhood settings prior to the first grade. Provisions of the school readiness framework include a holistic view that supports young children's development across domains, as well as transition strategies to support children and families as they enter school.

The Framework's focus on children is reflected below:

An Overview of WV Universal Pre-K

West Virginia's school readiness efforts are largely reflected in the state's Universal Pre-K Program. West Virginia's commitment to providing high-quality pre-k opportunities for all 4-year-olds, as well as all 3-year-olds with an Individualized Education Program (IEP), was solidified in 2002 with the establishment of West Virginia's Universal Pre-K System. This WVBE Policy was created to support ongoing collaboration with the WV Department of Health and Human Resources and federally-funded Head Start Programs to offer no-cost, high-quality pre-k services for children of all interested families.

Major components of WVBE Policy 2525 proposed:

- By 2012-13 all 4 year old children, as well as 3 year old children with an IEP, will have access to a quality Universal Pre-K program.
 - **WV Universal Pre-K enrollment was 15,472 children in 2013-2014.**
- In order to support counties in the effort to maximize existing resources, 50% of the classrooms are to be collaborations with community partners.
 - **During 2013-2014, 74% of the classrooms were in collaboration with community partners, far surpassing the original 50% mandate.**
- Funding for Universal Pre-K is part of the State School Aid Funding Formula.
 - **As enrollment increases, funding to implement increases - FY2014 Total State Aid funding generated by Pre-K was over 91 million dollars (in addition to Federal Head Start and Child Care funding).**

An Overview of WV Universal Pre-K

West Virginia's Universal Pre-K Program is a national leader for assuring universal access and comprehensive services in all 55 counties. The National Institute for Early Education Research (NIEER) notes that West Virginia's Universal Pre-K Program offers 8 of 10 quality benchmarks indicative of high-quality programming. The benchmarks are reflected below:

NIEER Quality Standards Checklist - WV Met 8 of 10 for 2013 Yearbook				Targets
Policy	State Pre-K Requirement	Benchmark	Does Requirement Meet Benchmark?	
1. Early learning standards	Comprehensive	Comprehensive	✓	✓
2. Teacher degree	BA (Pre-K only programs) AA (blended programs) ²	BA	No	✓ ✓
3. Teacher specialized training	See footnotes ³	Specializing in Pre-K	✓	✓
4. Assistant teacher degree	HSD	CDA or equivalent	No	✓
5. Teacher in-service	15 clock hours	At least 15 hours/year	✓	✓
6. Maximum class size				
3-year olds	20	20 or lower	✓	✓
4-year olds	20			
7. Staff-Child ratio				
3-year olds	1:10	1:10 or better	✓	✓
4-year olds	1:10			
8. Screening/referral and support services	Vision, hearing, health, developmental, dental; and support services ⁴	Vision, hearing, health; and at least 1 support service	✓	✓
9. Meals	Depend on length of program day ⁵	At least 1/day	✓	✓
10. Monitoring	Site visit and other monitoring	Site visits	✓	✓

² If the classroom is in a community collaborative (supported by two or more funding sources and located in a public school or community-based setting), the teacher may be on permit, provided that the teacher has at least an Associate's degree in an approved field and is working toward certification. Teachers may be on permit for up to 5 years.

³ Teachers in public school settings that are not collaborative must be certified in Birth-5, Early Childhood Education, Preschool Special Needs, or Elementary Education (with a Pre-K/K endorsement). Teachers in community collaborative settings must have a degree in Child Development/Early Childhood or in Occupational Development with an emphasis in Child Development/Early Childhood.

⁴ Support services include two annual parent conferences or home visits, transition to kindergarten activities, and other locally determined services.

⁵ Meals must be offered if the program operates for more than 4 hours per day.

(Adapted from www.nieer.org)

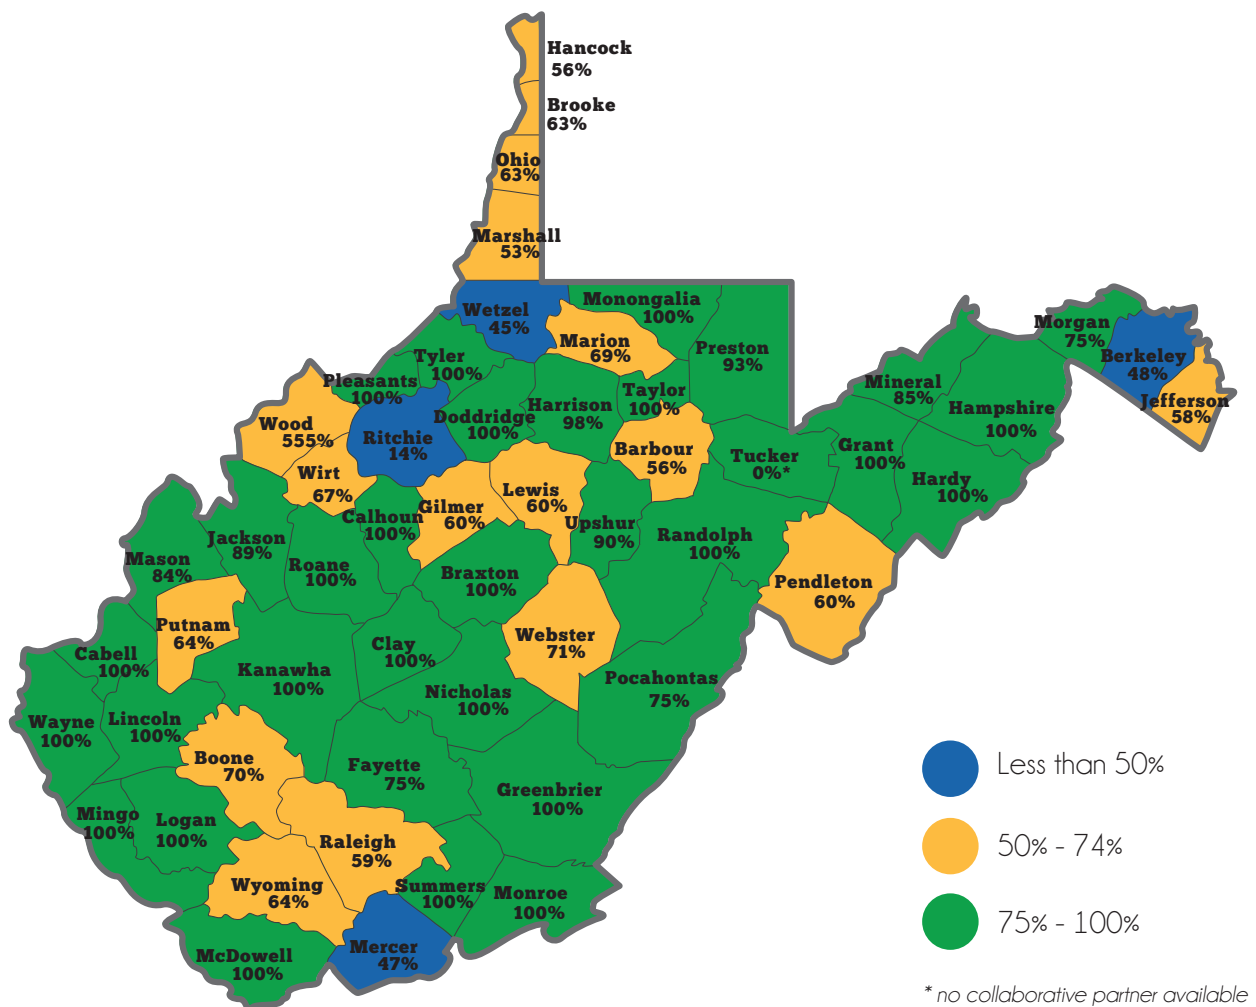

As well-documented in early childhood education research, high-quality programming is likely to yield positive outcomes for young children that resonate well past the early childhood years.

An Overview of WV Universal Pre-K

Central to the establishment of school readiness goals for county collaborative early childhood teams is the ongoing commitment to ensuring continuous quality improvement across all WV Universal Pre-K settings. This is demonstrated by the high levels of collaboration between the WV Department of Education, WV Department of Health and Human Resources, and Head Start to offer high-quality pre-k programs.

As noted in WV Board of Education Policy 2525, a minimum of 50% collaboration with available partners is required of county pre-k programs. The following data map reflects collaboration rates with available community partners for the 2012-2013 school year:

West Virginia Universal Pre-K • 2013-14 Collaboration Rates

An Overview of WV Universal Pre-K

Participation in WV's Universal Pre-K Program, while voluntary, has increased in percentage each year since the program began in 2002. The participation rates below were compiled by comparing the 5 yr. old kindergarten enrollment and the 4 yr. old population enrolled in pre-k from the previous year. This is used as a rough estimate for participation and needs.

West Virginia Universal Pre-K • 2013-14 Participation Rates

Data-driven School Readiness Decisions

The various types of data presented in this profile are arranged to provide county collaborative early childhood teams, administrators, and other stakeholders with valuable information about the status of young children during the years prior to first grade. Those groups utilizing this document are asked to collectively analyze data elements to make informed decisions regarding programming, professional development, and other services to assist with continuous quality improvement across programs.

The WV School Readiness Profile can be utilized to facilitate dialogue among early childhood stakeholders and to promote continuous quality improvement throughout the early childhood community. This resource may support ongoing communication with other stakeholders and groups to:

- Increase the quality of a county's early childhood program, including not just WV Universal Pre-K but also the entire birth through age five community;
- Increase the relationship between medical providers and other stakeholders, including families, administrators, and educators;
- Strengthen the health status of West Virginia's early learners;
- Focus on methods to ensure more reliable data collection and use to better articulate school readiness (such as methods to ensure WV Pre-K attendance is captured properly in WVEIS);
- Prioritize professional learning efforts for educators, administrators, and families; and
- Increase family engagement opportunities.

It is important that groups using this profile understand that the elements contained within are not a checklist, but rather a comprehensive view of several data elements available to them to help design efficient school readiness strategies. By combining the information contained in this resource with the strategies contained in the WV Kindergarten Transitions Toolkit, groups will be able to tailor specific components of the Ready, Set, Go! WV Kindergarten Transition model to best serve young children in their communities. A thorough understanding of how children are supported as they enter school from various settings can help inform instruction and help close the achievement gaps that are so prevalent in our state.

Roadmap to the County Profile Pages

Early Childhood Program Profile

Descriptors for Early Childhood Program elements are provided for each piece of data collected below.

Program Information

(2013-2014)

Number of WV Universal Pre-K Classrooms (<i>as reported to the WV Pre-K Steering Team annually; classrooms operating with AM and PM sessions are reflected in this count as two classrooms</i>)	This includes all WV Universal Pre-K classrooms serving 4-year-olds and 3-year-olds with special needs in both collaborative and non-collaborative settings.
WV Universal Pre-K Collaboration Rate (<i>WVBE Policy 2525 requires a minimum of 50% collaboration with potential community partners, including licensed childcare and Head Start programs</i>)	Calculated based on the number of classrooms that are collaborative with either childcare or Head Start compared to the total number of classrooms in the county's WV Universal Pre-K Classrooms.

WV Universal Pre-K Enrollment Information

(2013-2014)

WV Universal Pre-K Enrollment	As reported in WVEIS 2nd Month Enrollment
Number of 4-year-old children in WV Universal Pre-K Receiving Head Start Services	As reported in WVEIS menu item STU.380: Collaborative Early Childhood Programs.
Number of children in WV Universal Pre-K Identified as Having Special Needs	As reported in WVEIS 2nd Month Enrollment.
WV Universal Pre-K Participation Rate	The comparison between the 5 yr. old kindergarten enrollment and the 4 yr. old population enrolled in pre-k from the previous year.

Roadmap to the County Profile Pages

WV Universal Pre-K and WV Kindergarten Attendance as reflected in WVEIS (2013-2014)

WV Universal Pre-K Average Daily Attendance	As reported by districts in WVEIS
WV Kindergarten Average Daily Attendance	As reported by districts in WVEIS

Potential Uses for Early Childhood Program Profile Data

These data can be utilized for multiple purposes, including but not limited to:

- Examining collaborations with entities such as Head Start and childcare;
- Brainstorming additional opportunities for collaboration with partners;
- Looking at potential methods to increase access for children eligible for WV Universal Pre-K;
- Examining attendance patterns as an indicator to address 3rd grade literacy proficiency.

From the Field:

How did you or your team use the 2013 WV School Readiness profile?

“We utilize the data to make decisions on school readiness goals, professional development to attain those goals, and in our self-assessment.”

--Nancy Hanna
Director of Early Childhood Education
Greenbrier County Schools

Roadmap to the County Profile Pages

Child Outcome Data

Child outcome data has been compiled based on information provided by WV Universal Pre-K Educators as reported on the WV Pre-K Child Assessment System Reporting Platform during the 2013-2014 School Year.

The WV Pre-K Child Assessment System utilizes the Pre-K Early Learning Scale, a valid formative assessment instrument developed by the Rutgers University's National Institute for Early Education Research (NIEER), as an anchor process for educators to inform daily instruction, guide lesson planning, and articulate individual children's progress to families.

The formative assessment process is a key foundation of all high-quality early learning programs. Evidence found during the formative assessment process are used to tailor individualized instruction and articulate children's ongoing development to families over time.

To assist with the provision of high-quality WV Universal Programming, West Virginia Board of Education Policy 2520.15 (WV Early Learning Standards Framework) is utilized throughout all WV Universal Pre-K classrooms. The Early Learning Standards Framework is used to provide high-quality experiences for all children who attend WV Universal Pre-K. The relationship between standards and the formative assessment process includes the ongoing process of gathering evidence through various formative methods to inform individualized, standards-based experiences for children.

Roadmap to the County Profile Pages

Support for educators and stakeholders as they aspire to link instruction and the ongoing formative assessment process with continuous quality improvement is reflected in the graphic below:

Standards-based learning and the formative assessment process

Roadmap to the County Profile Pages

Understanding Child Outcomes

Inherent to the formative assessment process is the regular collection, analysis, and reflection of evidence that informs educators of children's ongoing development. The 2013 revision of WVBE Policy 2525 includes support for this process through the ongoing reporting of data elements to the state's WVEIS platform via an Internet-based application.

Child outcome data from the WV Pre-K Child Assessment System is presented below in a format to assist county collaborative early childhood teams as they examine growth over time across domains. The report below, as well as multiple other types of reports to assist with decision making and professional development plans, are available to administrators on a secure website found at <http://wveis.k12.wv.us/teach21/prek/>. To request access, utilize the contact information provided on this web link.

Potential Uses for Child Outcome Data

Important reminder: The Child Outcome Data provided in this profile should be viewed as a tool to look at growth trends across developmental domains. Child Outcome Data should not be utilized with the goal of getting all children to the highest level (a "5"). Instead, educators and stakeholders should be aware of the individualized growth of each child across all domains based on authentic assessment, which includes gathering evidence and reflecting on each child's development throughout the school year.

Child Outcome Data can be used for multiple purposes, including but not limited to:

- Making decisions about potential professional learning opportunities for early childhood educators and administrators.
- Making decisions about potential family engagement experiences to focus on heightened awareness of learning domains.

Roadmap to the County Profile Pages

Elements of the Pre-K Early Learning Scale are aligned to WV Universal Pre-K's curricular framework, the WV Early Learning Standards Framework for Children Ages 3-5. Additionally, the Pre-K Early Learning Scale is divided into three domains to highlight key aspects of school readiness:

Pre-K Early Learning Scale Domain Descriptors *

Math/Science

1. Number and numerical operations	From basic counting and measurement to identifying shapes and observing the natural world, the strands within these items target those math and science skills that form the foundation for future learning and academic success.
2. Classification and algebraic thinking	
3. Geometry and measurement	
4. Scientific inquiry	

Social-Emotional/Social Studies

5. Self-regulation	Current research indicates that unless children achieve a degree of social competence by the age of 6, they have a high probability of being at risk throughout their lives. By focusing on skills related to self-regulation, prosocial behavior and cooperative play among others, the ELS provides teachers with an accurate and appropriate measure of each child's social development.
6. Play	

Language and Literacy

7. Oral language	This domain includes items that support core aspects of later literacy and language competence, such as speaking in sentences of varying complexity, retelling familiar stories, identifying print concepts and developing foundations of writing. These indicators are used to help teachers as they engage in the ongoing process of formative assessment to support each child.
8. Phonological awareness	
9. Print awareness	
10. Writing	

*Domain descriptions adapted from <http://static.k12.wv.us/oel/docs/ELS.Head%20Start.ELSF%20Alignment%20Condensed%20May%202011.pdf>

Roadmap to the County Profile Pages

To help county collaborative early childhood teams and other stakeholders better understand the child outcome data, a roadmap is provided:

Early Learning Scale Item: Ten items are provided upon which educators report individual children's progress three times per year via the WV Pre-K Child Assessment System Reporting Platform.

Checkpoints: Three checkpoints for data entry occur each year. For this table, data from Checkpoint 1 (October 2013) and 3 (May 2014) are utilized.

Early Learning Scale Item	Checkpoint 1			Checkpoint 3		
	%1-1.99	%2-3.99	%4-5	%1-1.99	%2-3.99	%4-5
1. Number And Numerical Operations						
2. Classification And Algebraic Thinking						
3. Geometry And Measurement						
4. Scientific Inquiry						
5. Self-Regulation						
6. Play						
7. Oral Language						
8. Phonological Awareness						
9. Print Awareness						
10. Writing	21.92			6.83		

Scoring: Items of the Pre-K Early Learning Scale are broken down further into 24 strands upon which teachers provide scores of 1,3, or 5 (based on performance descriptors). These strand scores are averaged into an item score for each of the ten items provided.

For more information about strand scoring, contact the WVDE Office of Early Learning by emailing mdellamea@k12.wv.us

Percentages and Growth: Compare the percentage of children during Checkpoint 1 who scored at a specific level with the percentage of children during Checkpoint 3 who scored at the same level to determine areas of growth.

Example: The arrows provided indicate that statewide, 21.92 percent of children scored between a 1 and 1.99 in Writing during Checkpoint 1; however, only 6.83 percent of children scored in the same range during Checkpoint 3.

Roadmap to the County Profile Pages

Kindergarten Entry Health Data

This data has been compiled based on information provided to WVEIS for the 2013-2014 School Year, and includes information regarding the health status of children at kindergarten entry.

- HealthCheck Form state and county averages percentages on file in WVEIS.
 - » Hearing
 - » Vision
 - » Oral Health
 - » Developmental
 - » Speech and Language
- HealthCheck Form state and county average percentages referred (from records on file in WVEIS) for the same 5 components above.
- Kindergarten children with an Individual Health Plan in WVEIS.

Potential Uses for Health Data

Kindergarten entry health data is used to help inform the status of children as they enter the state's kindergarten programs. Elements of this data set are considered on file if they are fully or provisionally entered into WVEIS.

These data can be used for multiple purposes, including but not limited to:

- Determining the extent to which specific components of the Health Check form are being completed and received by kindergarten programs.
- Analyzing referral rates for specific components of the Health Check form to determine potential under- or over-use of the referral process

Kindergarten Entry Health Data

This data has been compiled based on information provided to WVEIS for the (2013-2014) School Year, and includes information regarding the health status of children at kindergarten entry.

Key Element	County % On File in WVEIS	State Average % On File in WVEIS	Of those On File, County % Referred	Of those On File, State Average % Referred
Health Check Form: Hearing	37.34%	64.93%	0.00%	2.82%
Health Check Form: Vision	40.21%	74.84%	1.30%	4.41%
Health Check Form: Oral Health	6.79%	23.52%	3.85%	3.97%
Health Check Form: Developmental	22.98%	17.31%	0.00%	0.72%
Health Check Form: Speech and Language	37.08%	48.88%	2.11%	3.12%

Key Element	County Average %	State Average %
Kindergarten Children with an Individual Health Plan	7.31%	6.57%

Wyoming County Find My WV Pre-K Information:

Visit <http://wvde.state.wv.us/oel/map-web/> to find additional information regarding the county collaborative early childhood team, WV Universal Pre-K classrooms, and other data.

Summary

Data for the 2014 WV School Readiness Profile have been compiled using various measures which focus on both programmatic data collection as well as child outcome information. Self-reported data by counties to the WVDE Office of Early Learning, as well as data reported by counties to WVEIS, compile the primary resources from which data were pulled to design this profile.

It is the intent that this resource serve county collaborative early childhood teams as they work together to develop school readiness goals that align with the philosophy of the Ready, Set, Go! WV School Readiness and Transitions Framework. Facilitating healthy transitions and school readiness children in WV is a goal to which all stakeholders—families, educators, administrators, and community members—should aspire.

Resources

The following resources are available to assist county collaborative early childhood teams as they make data-driven decisions and provide support for their county early childhood community:

WVDE Office of Early Learning: <http://wvde.state.wv.us/oel/>

Find my West Virginia Pre-K: <http://wvde.state.wv.us/oel/map-web/>
