Michael J. Martirano, Ex Officio
State Superintendent of Schools
West Virginia Department of Education

Foreword

Dear Early Childhood Stakeholders,

West Virginia's comprehensive approach to school readiness includes not only schools but communities, families and all early learning programs. Ready, Set, Go! West Virginia provides a comprehensive model to support children and families as they transition into and out of various early childhood settings prior to first grade. It is with this model in mind that we prepare all entities to provide support to children.

The 2016 West Virginia School Readiness Profile may be utilized by stakeholders to make data driven decisions and create goals to support school readiness efforts as well as instruction through the County Campaign for Grade Level Reading.

The School Readiness Profile includes programmatic and child outcome data, as well as health and attendance information for West Virginia Universal Pre-K and Kindergarten Programs. The Profile may be utilized to gain a deeper understanding of the status of children prior to entering first grade.

Due to the collaborative efforts of the West Virginia Department of Education's Office of Early Learning, the West Virginia Department of Health and Human Resources Bureau for Children and Families, Division of Early Care and Education, and West Virginia Head Start Programs, the 2016 Profile includes snapshots of aggregated county and state-level information.

I share this profile with you as we continue to make progress toward college and career readiness for all students by increasing attendance, closing the literacy achievement gap and raising high school graduation rates. Using the profile to better understand how we can best meet the needs of children and families will help us achieve these goals.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael J. Martirano".

Michael J. Martirano, Ed.D.
State Superintendent of Schools

Acknowledgements

The West Virginia Department of Education's Office of Early Learning would like to thank the following entities for their assistance with the development of the 2016 WV School Readiness Profile:

West Virginia Board of Education

Early Childhood Advisory Council of West Virginia

National Institute for Early Education Research

West Virginia Department of Education Office of Assessment

West Virginia Department of Education Office of Communications and Partnerships

West Virginia Department of Education Office of Data Management & Analysis

West Virginia Department of Education Office of Special Education

West Virginia Head Start State Collaboration Office

West Virginia Department of Health and Human Resources, Division of Early Care & Education

West Virginia Department of Education Office of Research, Accountability & Data Governance

Purpose/Introduction

The intent of the 2016 West Virginia School Readiness Profile is to provide those who serve on county collaborative early childhood teams with various forms of data so they can make informed decisions about the scope, intensity, and quality of early childhood programming available at the local level. Other early childhood leaders and stakeholders may also benefit from use of this document when used as a resource to learn more about a specific county or counties.

The data in this profile is provided to help county collaborative early childhood teams align their efforts with the ***Ready, Set, Go! WV Comprehensive Framework for School Readiness***. This framework includes an approach that focuses on how the state and local communities, schools, and programs can offer support and resources for families and children prior to and during their transition into school. The availability of access to WV Universal Pre-K and WV kindergarten also provides opportunities for children to build solid foundations and positive dispositions to learning.

As a result, a wealth of data are available to the WVDE and collaborative partners regarding both programmatic and child outcomes of the WV Universal Pre-K Program. Kindergarten health entry data, along with attendance for WV Universal Pre-K and Kindergarten programs, are also available and included in the profile. These data can be shared with those in counties who make decisions regarding strategic planning, programming, curriculum, professional learning, and other components of a comprehensive early childhood education approach.

This edition of the WV School Readiness Profile provides information for individual counties as they continue to refine practices that support school readiness efforts throughout their early childhood and early elementary programs. The intent of this resource is not to dictate school readiness goals for county collaborative early childhood teams, but instead to provide data to assist teams as they develop school readiness goals.

Defining School Readiness in WV

School readiness is a process of assuring children have access to the best available resources prior to entering first grade. Available resources support children and their families, and focus on maximizing children's holistic development from birth. Acknowledging that each child's development is significantly impacted by previous experiences, school readiness also entails the capacity of schools and programs to welcome families and be prepared to serve all children effectively within the developmental domains of health and physical development, social and emotional development, language and communication, cognition and general knowledge, and individual approaches to learning.

To support school readiness efforts and assure the use of developmentally effective methods for children prior to entering first grade, the ***Ready, Set, Go! West Virginia Comprehensive Framework for School Readiness*** is utilized in West Virginia early learning programs. This comprehensive framework includes an approach that focuses on how the state and local communities, schools, and programs can offer support and resources for families and children prior to and during their transition into school. Programs serving children in Early Learning Readiness grades (WV Pre-K and Kindergarten) also provide opportunities for children to build solid foundations and positive dispositions to learning.

What is Ready, Set, Go! WV?

Ready, Set, Go! WV is a framework to help individuals understand and support the various transitions in which young children engage prior to and after school entry.

Originally established to support kindergarten transition efforts, Ready, Set, Go! WV was expanded in 2014 to align with the assertion that all young children should be afforded opportunities to transition successfully into and out of early childhood settings prior to the first grade. Provisions of the school readiness framework include a holistic view that supports young children's development across domains, as well as transition strategies to support children and families as they enter school.

The Framework's focus on children is reflected below:

Ready, Set, Go! WV: West Virginia's Comprehensive Framework for School Readiness

An Overview of WV Universal Pre-K

West Virginia's school readiness efforts are largely reflected in the state's Universal Pre-K Program. West Virginia's commitment to providing high-quality pre-k opportunities for all 4-year-olds, as well as all 3-year-olds with an Individualized Education Plan (IEP), was solidified by the 2002 development of **West Virginia Board of Education Policy 2525: West Virginia's Universal Access to a Quality Early Education System**. This WVBE Policy was created to support ongoing collaboration with the WV Department of Health and Human Resources and federally-funded Head Start Programs to offer no-cost, high-quality pre-k services for children of all interested families.

Major components of the original version of WVBE Policy 2525 proposed:

- By 2012-13 all 4 year old children, as well as 3 year old children with an IEP, will have access to a quality Universal Pre-k program.
 - **WV Universal Pre-K enrollment was 15,113 children in 2015-2016.**
- In order to support counties in the effort to maximize existing resources, 50% of the classrooms are to be collaborations with community partners.
 - **During 2015-2016, 81% of the classrooms were in collaboration with community partners, far surpassing the original 50% mandate.**
- Funding for Universal Pre-K is part of the State School Aid Funding Formula.
 - **As enrollment increases, funding to implement increases – FY2016 Total State Aid funding generated by Pre-K was over 91 million dollars** (in addition to Federal Head Start and Childcare funding).

An Overview of WV Universal Pre-K

West Virginia's Universal Pre-K Program is a national leader for assuring universal access and comprehensive services in all 55 counties. The National Institute for Early Education Research (NIEER) notes that West Virginia's Universal Pre-K Program provides 10 of 10 quality benchmarks indicative of high-quality programming during the 2015- 2016 school year. The benchmarks are reflected below:

NIEER Quality Standards Checklist		Benchmarks Met in West Virginia		Does Requirement Meet Benchmark?
Policy	State Pre-K Requirement	Benchmark	2015-2016	
1. Early learning standards	Comprehensive	Comprehensive	✓	
2. Teacher degree	BA ¹		✓	
3. Teacher specialized training	EC Endorsement, Preschool Special Needs (public); Community Program Permanent Authorization ²	Specializing in Pre-K	✓	
4. Assistant teacher degree	HSD ³	CDA or equivalent	✓	
5. Teacher in-service	15 clock hours	At least 15 hours/year	✓	
6. Maximum class size 3-year olds 4-year olds	20 20	20 or lower	✓	
7. Staff-Child ratio 3-year olds 4-year olds	1:10 1:10	1:10 or better	✓	
8. Screening/referral and support services	Vision; hearing; health, dental ⁴	Vision, hearing, health; and at least 1 support service	✓	
9. Meals	Depend on length of program day ⁵	At least 1/day	✓	
10. Monitoring	Site visit and other monitoring	Site visits	✓	
Benchmarks Met			10	

1 All pre-k teachers employed by the public school must hold a Bachelor's degree and state certification. Beginning August 1, 2013, all newly hired teachers employed by community collaborative programs must hold a Bachelor's degree.

2 Teachers employed by public schools must be certified in Birth-5, Early Childhood Education, Preschool Special Needs, or Elementary Education (with a Pre-K/K endorsement). Since August 1, 2013, all newly hired teachers in nonpublic school settings will be required to have a Bachelor's degree in Child Development/ Early Childhood or in Occupational Development with an emphasis in Child Development/Early Childhood.

3 Assistant Teacher degree is the remaining NIEER Quality Standard for WV Universal Pre-K that was made possible through legislation passed in SB 359 in 2013. This benchmark will be met in the 2015 State of Pre-K. Beginning July 1, 2014, all assistant teachers must have a CDA or equivalent determined by the WVBE.

4 Support services include two annual parent conferences or home visits, transition to kindergarten activities, and other locally determined services.

5 Meals must be offered if the program operates for more than 4 hours per day.

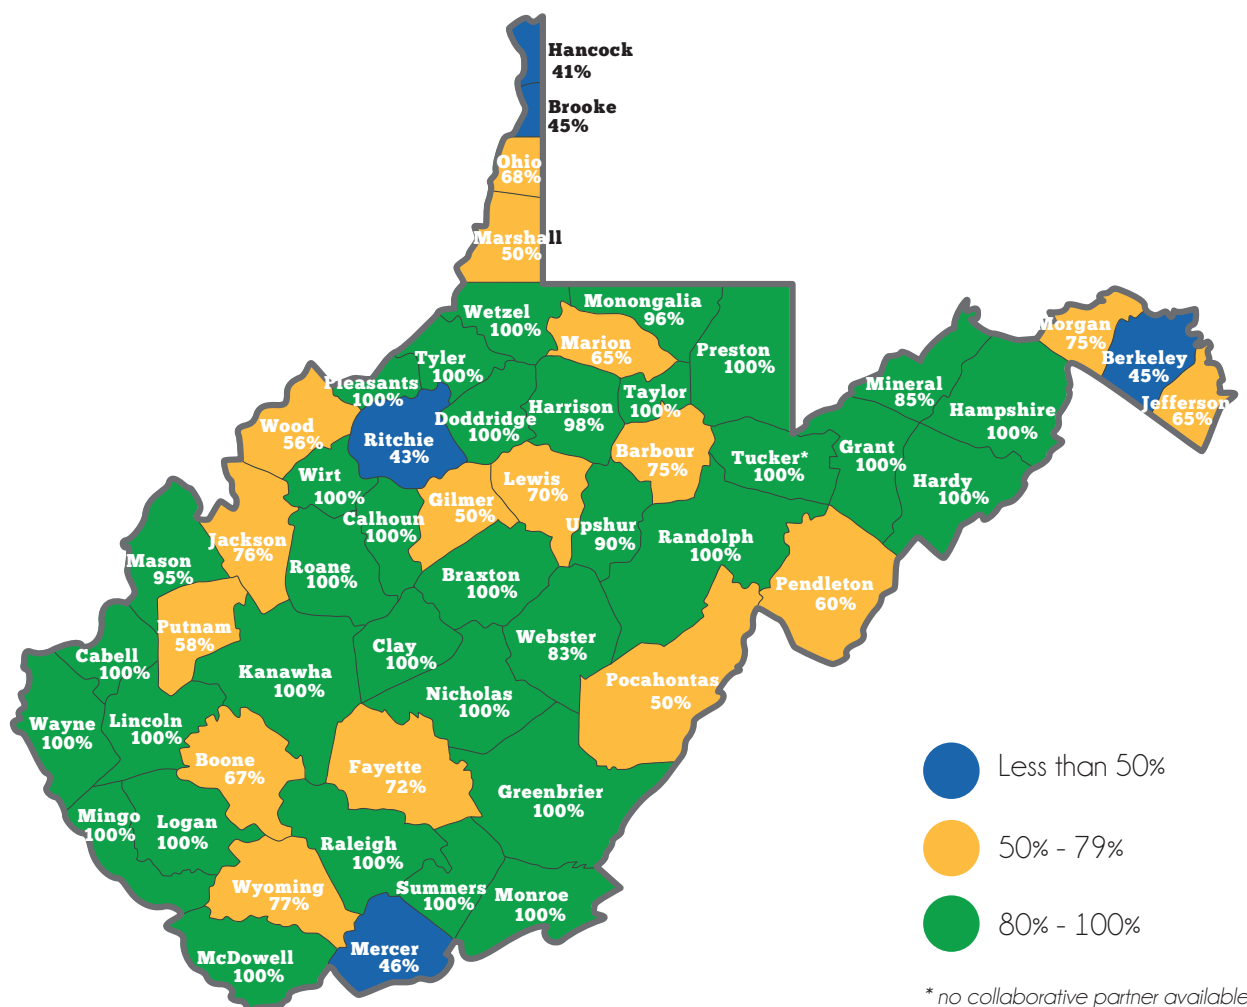

As well-documented in early childhood education research, high-quality programming is likely to yield positive outcomes for young children that resonate well past the early childhood years.

An Overview of WV Universal Pre-K

Central to the establishment of school readiness goals for county collaborative early childhood teams is the ongoing commitment to ensuring continuous quality improvement across all WV Universal Pre-K settings. This is demonstrated by the high levels of collaboration between the WV Department of Education, WV Department of Health and Human Resources, and Head Start to offer high-quality pre-k programs.

As noted in WV Board of Education Policy 2525, *a minimum of 50% collaboration with available partners is required of county pre-k programs*. The following data map reflects collaboration rates with available community partners for the 2015-16 school year:

West Virginia Universal Pre-K • 2015-2016 Collaboration Rates

- Less than 50%
- 50% - 79%
- 80% - 100%

* no collaborative partner available

State average: 81%

An Overview of WV Universal Pre-K

Participation in WV's Universal Pre-K Program is voluntary. The participation rates below were compiled by comparing the 2016-2017 5 yr. old kindergarten enrollment with the 2015-2016 Pre-K 4 yr. old population. This is used as a rough estimate for participation and needs.

West Virginia Universal Pre-K • 2015-2016 Participation Rates

Data-driven School Readiness Decisions

The various types of data presented in this profile are arranged to provide county collaborative early childhood teams, administrators, and other stakeholders with valuable information about the status of young children during the kindergarten year, as well as the year prior to kindergarten entry. Those groups utilizing this document are asked to collectively analyze data elements to make informed decisions regarding programming, professional learning, and other services to assist with continuous quality improvement across programs.

The WV School Readiness Profile can be utilized to facilitate dialogue among early childhood stakeholders and to promote continuous quality improvement throughout the early childhood community. Strategies to employ through use of this resource may include (but are not limited to) engaging in ongoing communication with other stakeholders and groups to:

- Increase the quality of a county's early childhood programs, including not just WV Universal Pre-K but also the entire birth through age five community;
- Increase the relationship between medical providers and other stakeholders, including families, administrators, and educators;
- Strengthen the health status of West Virginia's early learners;
- Focus on methods to ensure more reliable data collection and use to better articulate school readiness (such as methods for ensuring WV Pre-K attendance is captured properly in WVEIS);
- Prioritize professional learning efforts for educators, administrators, and families; and
- Increase family engagement opportunities.

It is important that groups using this profile understand that the elements contained within are not a checklist, but instead provide a comprehensive view of several data elements available to them to help design efficient school readiness strategies. By combining the information contained in this resource with the strategies contained in the WV Kindergarten Transitions Toolkit, groups will be able to tailor specific components of the Ready, Set, Go! WV Kindergarten Transition model to best serve the young children in their communities as they enter kindergarten. It can be noted that having a thorough understanding of how children are supported and fare as they enter school from various settings can help inform classroom instruction and ultimately, help close the achievement gaps that are so prevalent in our state.

Roadmap to the County Profile Pages

Early Childhood Program Profile

Descriptors for Early Childhood Program elements are provided for each piece of data collected below.

Program Information	
Number of WV Universal Pre-K Classrooms (<i>as reported to the WV Pre-K Steering Team annually via the West Virginia Early Reporting System; classrooms operating with AM and PM sessions are reflected in this count as two classrooms</i>)	This includes all WV Universal Pre-K classrooms serving 4-year-olds and 3-year-olds with special needs in both collaborative and non-collaborative settings.
WV Universal Pre-K Collaboration Rate (<i>WVBE Policy 2525 requires a minimum of 50% collaboration with potential community partners, including licensed childcare and Head Start programs</i>)	Calculated based on the number of classrooms that are collaborative with either childcare and/or Head Start compared to the total number of classrooms in the county's WV Universal Pre-K program.

WV Universal Pre-K Enrollment Information	
WV Universal Pre-K Enrollment	As reported in WVEIS 2nd Month Enrollment
Number of 3-year-old children in WV Universal Pre-K Receiving Head Start Services	As reported in WVEIS menu item STU.380: Collaborative Early Childhood Programs
Number of 4-year-old children in WV Universal Pre-K Receiving Head Start Services	As reported in WVEIS menu item STU.380: Collaborative Early Childhood Programs.
Number of children in WV Universal Pre-K Identified as Having Special Needs	As reported in WVEIS 2nd Month Enrollment.
WV Universal Pre-K Participation Rate	The comparison between the 2016-2017 5 yr. old kindergarten enrollment and the 2015-2016 4 yr. old Pre-K population.

Roadmap to the County Profile Pages

WV Universal Pre-K and WV Kindergarten Attendance as reflected in WVEIS

WV Universal Pre-K Average Daily Attendance	As reported by districts in WVEIS
WV Kindergarten Average Daily Attendance	As reported by districts in WVEIS

Potential Uses for Early Childhood Program Profile Data

These data can be utilized for multiple purposes, including but not limited to:

- Examining collaborations with entities such as Head Start and childcare;
- Brainstorming additional opportunities for collaboration with partners;
- Looking at potential methods to increase access for children eligible for WV Universal Pre-K;
- Examining attendance patterns as an indicator to address 3rd grade literacy proficiency.

Roadmap to the County Profile Pages

Child Outcome Data

Child outcome data has been compiled based on information provided by WV Universal Pre-K Educators as reported on the WV Early Learning Reporting System (ELRS): Pre-K during the 2015-2016 School Year.

The WV ELRS: Pre-K utilizes the Pre-K Early Learning Scale, a valid formative assessment instrument developed by the Rutgers University's National Institute for Early Education Research (NIEER), as an anchor process for educators to inform daily instruction, guide lesson planning, and articulate individual children's progress to families.

The formative assessment process is a key foundation of all high-quality early learning programs. Evidence found during the formative assessment process are used to tailor individualized instruction and articulate children's ongoing development to families over time.

To assist with the provision of high-quality WV Universal Pre-K programming, West Virginia Board of Education Policy 2520.15 (WV Early Learning Standards Framework) was most recently revised in 2015 and went into effect August 2015. The WV Early Learning Standards Framework is utilized throughout all WV Universal Pre-K classrooms to provide high-quality experiences for all children who attend WV Universal Pre-K. The relationship between standards and the formative assessment process includes the ongoing process of gathering evidence through various formative methods to inform individualized, standards-based experiences for children.

Roadmap to the County Profile Pages

Support for educators and stakeholders as they aspire to link instruction and the ongoing formative assessment process with continuous quality improvement to provide high-quality professional learning opportunities and technical assistance is reflected in the graphic below:

Standards-based learning and the formative assessment process

Roadmap to the County Profile Pages

Understanding Child Outcomes

Inherent to the formative assessment process is the regular collection, analysis, and reflection of evidence that informs educators of children's ongoing development. WVBE Policy 2525 includes support for this process through the ongoing reporting of data elements to the state's Webtop-based platform.

Child outcome data from the WV ELRS: Pre-K are presented below in a format to assist county collaborative early childhood teams as they examine growth over time across domains. The report below, as well as multiple other types of reports to assist with decision making and professional learning plans, are available to administrators on a secure website found at <http://wvde.state.wv.us/apps/elrs/>.

Potential Uses for Child Outcome Data

Important reminder: The child outcome data provided on the next pages should be viewed as a tool to look at growth trends across developmental domains. Child outcome data should not be utilized with the goal of getting all children to the highest level (a "5"). Instead, educators and stakeholders should be aware of the individualized growth of each child across all domains based on authentic assessment, which includes gathering evidence and reflecting on each child's development throughout the school year.

Child outcome data can be used for multiple purposes, including but not limited to:

- Making decisions about potential professional learning opportunities for early childhood educators and administrators.
- Making decisions about potential family engagement experiences to focus on heightened awareness of learning domains.

Roadmap to the County Profile Pages

Elements of the Pre-K Early Learning Scale are aligned to WV Universal Pre-K's curricular framework, the WV Early Learning Standards Framework for Children Ages 3-5. Additionally, the Pre-K Early Learning Scale is divided into three domains to highlight key aspects of school readiness:

Pre-K Early Learning Scale Domain Descriptors *

Math/Science

1. Number and numerical operations	From basic counting and measurement to identifying shapes and observing the natural world, the strands within these items target those math and science skills that form the foundation for future learning and academic success.
2. Classification and algebraic thinking	
3. Geometry and measurement	
4. Scientific inquiry	

Social-Emotional/Social Studies

5. Self-regulation	Current research indicates that unless children achieve a degree of social competence by the age of 6, they have a high probability of being at risk throughout their lives. By focusing on skills related to self-regulation, prosocial behavior, and cooperative play among others, the ELS provides teachers with an accurate and appropriate measure of each child's social development.
6. Play	

Language and Literacy

7. Oral language	This domain includes items that support core aspects of later literacy and language competence, such as speaking in sentences of varying complexity, retelling familiar stories, identifying print concepts and developing foundations of writing. These indicators are used to help teachers as they engage in the ongoing process of formative assessment to support each child.
8. Phonological awareness	
9. Print awareness	
10. Writing	

*Domain descriptions adapted from <http://wvde.state.wv.us/oel/childhood-assessment.php>

Roadmap to the County Profile Pages

To help county collaborative early childhood teams and other stakeholders better understand the child outcome data, a roadmap is provided:

Early Learning Scale Item: Ten items are provided upon which educators report individual children's progress three times per year via the WV ELRS: Pre-K.

Checkpoints: Three checkpoints for data entry occur each year. Checkpoints typically occur in October, February and May. The first and third checkpoints from the 2015-2016 school year are utilized for these data tables.

Early Learning Scale Item	School Entry At, Near or Above Proficiency	End of Year At, Near or Above Proficiency
1. Number And Numerical Operations		
2. Classification And Algebraic Thinking		
3. Geometry And Measurement		
4. Scientific Inquiry		
5. Self-Regulation		
6. Play		
7. Oral Language		
8. Phonological Awareness		
9. Print Awareness		
10. Writing		

Scoring: Items of the Pre-K Early Learning Scale are broken down further into 24 strands upon which teachers provide scores of 1, 3, or 5 (based on performance descriptors). These strand scores are averaged into an item score for each of the ten items provided.

For more information about strand scoring, contact the WVDE Office of Early Learning by emailing lmray@k12.wv.us

Percentages and Growth: Compare the percentage of children during Checkpoint 1 who scored at a specific level with the percentage of children during Checkpoint 3 who scored at the same level to determine areas of growth.

Roadmap to the County Profile Pages

Kindergarten Entry Health Data

These data have been compiled based on information provided to WVEIS for the 2015-2016 School Year, and includes information regarding the health status of children at kindergarten entry.

- HealthCheck Form: state and county averages percentages on file in WVEIS.
 - » Hearing
 - » Vision
 - » Developmental
 - » Speech and Language
- Immunization Completion Rate
- HealthCheck Form state and county average percentages referred (from records on file in WVEIS) for the same components above.
- Kindergarten children with an Individual Health Plan as reported in WVEIS.
- The oral health screenings completed by medical providers during the HealthCheck may be confused with the dental exam information provided by dentists. In an effort to prevent confusion, oral health information has not been included in the School Readiness Profile.

Potential Uses for Health Data

Kindergarten entry health data are used to help inform the status of children as they enter the state's kindergarten programs. Elements of this data set are considered on file if they are fully or provisionally entered into WVEIS.

These data can be used for multiple purposes, including but not limited to:

- Reviewing of current immunizations records to ensure completion rates to prevent communicable disease outbreaks and increase daily student attendance.
- Analyzing completion rates for compliance with vaccine law requirements and utilization for DHHR de-identified annual immunization survey data for Center for Disease control and Prevention.
- Determining the extent to which specific components of the HealthCheck form are being completed and received by kindergarten programs.
- Analyzing referral rates for specific components of the HealthCheck form to determine potential under- or over-use of the referral process to promote health and wellness while providing early identification and intervention for possible educational deficits.

Summary

Data for the 2016 WV School Readiness Profile have been compiled using various measures which focus on both programmatic data collection as well as child outcome information. Self-reported data by counties to the WVDE Office of Early Learning, as well as data reported by counties to WVEIS, compile the primary resources from which data were pulled to design this profile.

It is the intent that this resource serves county collaborative early childhood teams as they work together to develop school readiness goals that align with the philosophy of the ***Ready, Set, Go! WV School Readiness and Transitions Framework***. Facilitating healthy transitions and school readiness children in WV is a goal to which all stakeholders—families, educators, administrators, and community members—should aspire.

Resources

The following resources are available to assist county collaborative early childhood teams as they make data-driven decisions and provide support for their county early childhood community:

WVDE Office of Early Learning: <http://wvde.state.wv.us/oel/>

Ready, Set, Go! WV Resources to Support School Readiness and Transitions:
<http://wvde.state.wv.us/oel/school-readiness.php>

National Institute for Early Education Research (NIEER) State of Preschool Yearbook:
