***Career Technical Education (CTE)** programs in West Virginia are designed for all students and prepare them for entering post-secondary education, training or the workforce. CTE Content Skill Sets (CSSs) are based on national industry recognized accreditation and credentialing standards.

Simulated Workplace is a learning environment that permits students the opportunity to take ownership of their individual performance as it impacts the overall success of their education, while thriving in an authentic workplace culture. A Simulated Workplace environment is used in all career technical education programs in ODTP schools.

Career Integrated Experiential Learning (CIEL) is a CTE concentration that provides opportunities for students to test for multiple nationally recognized certifications while earning credit for relevant job-readiness skills, helping students to be career- and college-ready.
