| RE: | Assessment of Computer-Assisted Approach in Classification of Qualitative Survey Responses |
| DATE: | April 29, 2019 |

The Center for Business and Economic Research at Marshall University has completed this study to examine the effectiveness of the computer-assisted approach in classification of qualitative education survey responses. We examined the computer code (in R language) and generated results, and conclude that this approach used by West Virginia Department of Education (WVDE) is valid and effective.

We first tested the R code provided by WVDE and found that its generated results are consistent with documents provided by WVDE. Three software engineers went further through the code and came to the same conclusion that it is well-written and does not contain malicious sections intended to manipulate the results.

Next, we selected nine human readers to check whether survey responses were correctly assigned to their corresponding policy topics. Each human reader went through responses in one or two policy areas. All responses in each policy area were reviewed by four human readers independently. For each policy topic, we averaged the accuracy rates given by all four human readers to mitigate human error and differences in individual interpretations. The overall accuracy rate for all four policy areas is $84 \%$ (see Table below), meaning the computer-assisted approach had successfully assigned responses under the correct policy topics. In "Other" type questions, many participants restated the same or similar comments covered by existing policy topics. By default, our human readers treated this type of responses as "misclassification." Removing "Other" type questions within each policy topic would bring the overall accuracy rate to $87 \%$. The Funding Opportunities policy area contains the least accurate topic assignments, with accuracy rates between $45 \%$ and $70 \%$. These topics should receive special attention by reviewers in the next stage of analysis in terms of applicability.

For most policy topics, the computer-assisted approach is a meaningful and sufficient contribution to the study of WVDE and will provide human readers enough well-categorized information to conduct sentiment analysis.

Table. Accuracy Results of Policy Topic Assignment to Written Survey Responses

| Policy Area | Policy Topic | Accuracy Rate (\#Responses, Percent) |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Question 1 |  | Question 2 |  | Question 3 |  | All Questions |  |
| Funding Opportunities | Increased Compensation | 42 | 98\% | 28 | 40\% | 19 | 53\% | 89 | 70\% |
|  | Enrollment Floor | 0 |  | 0 |  | 0 |  | 0 |  |
|  | Local Levy Rates | 25 | 39\% | 90 | 57\% | 54 | 27\% | 169 | 45\% |
|  | Local Share Cap | 7 | 71\% | 15 | 45\% | 2 | 63\% | 24 | 54\% |
|  | Other - Funding Opportunities | 11 | 0\% | 1 | 50\% | 8 | 66\% | 20 | 29\% |
| Instructional Quality | Teacher Leaders | 44 | 97\% | 11 | 77\% | 7 | 57\% | 62 | 89\% |
|  | Teacher Preparation Programs | 34 | 99\% | 9 | 89\% | 6 | 92\% | 49 | 96\% |
|  | Support for Math Teachers | 14 | 96\% | 8 | 100\% | 2 | 88\% | 24 | 97\% |
|  | County Salary Supplements | 24 | 81\% | 21 | 83\% | 13 | 25\% | 58 | 69\% |
|  | Reduction in Force (RIF) Decisions | 13 | 90\% | 68 | 95\% | 10 | 80\% | 91 | 93\% |
|  | Other - Instructional Quality | 40 | 46\% | 49 | 35\% | 88 | 72\% | 177 | 56\% |
| School Choice and Innovation | Innovation Zone Expansion | 246 | 96\% | 37 | 85\% | 55 | 84\% | 338 | 92\% |
|  | Expanded Preschool | 147 | 99\% | 40 | 93\% | 18 | 74\% | 205 | 95\% |
|  | Open Enrollment | 48 | 100\% | 80 | 100\% | 7 | 95\% | 135 | 100\% |
|  | Charter Schools | 49 | 93\% | 365 | 93\% | 108 | 87\% | 522 | 92\% |
|  | Education Savings Accounts | 20 | 96\% | 229 | 90\% | 108 | 82\% | 357 | 88\% |
|  | Other - School Choice and Innovation | 9 | 100\% | 11 | 85\% | 8 | 88\% | 28 | 90\% |
| Social Emotional Supports | Communities in Schools | 5 | 100\% | 1 | 100\% | 3 | 92\% | 9 | 97\% |
|  | Student Support Personnel | 49 | 96\% | 51 | 89\% | 40 | 73\% | 140 | 87\% |
|  | Increased Student Support Personnel | 1 | 100\% | 6 | 100\% | 4 | 100\% | 11 | 100\% |
|  | Training for Teachers | 3 | 100\% | 0 |  | 0 |  | 3 | 100\% |
|  | Other - Social Emotional Supports | 28 | 65\% | 19 | 75\% | 32 | 66\% | 79 | 68\% |
| Total |  | 859 | 90\% | 1139 | 85\% | 592 | 73\% | 2590 | 84\% |

*For each question, the first number represents the number of responses and the second one represents the averaged accuracy rates from four human readers.
