Introduction

The WVDE Initial Teaching Application enables applicants needing to obtain their initial professional teaching certification to do so online without having to go through the manual process previously required to obtain approvals from the County Superintendent and the West Virginia Department of Education.

Applicants are able to submit their initial application (Form 20T) to their respective institution of higher education using the new West Virginia Electronic Application Processing (WVEAP) System. Once reviewed and approved by the institution of higher education and/or their county board of education (if employed), the applicant is notified to pay all applicable fees. After payment has been processed, the initial application is then sent to the WVDE for final approval.

*Note – Please use the most up-to-date versions of popular browsers to access the system. The system has been tested in Internet Explorer, Chrome, Safari, and FireFox. In addition, the system has been optimized for operation on a mobile device. The menus and field on system screens are “responsive” and will arrange appropriately based on the size of your browser window or device screen.*
Certification Registration

Each applicant must first register with the Certification Portal to connect their certification records with their Single Signon Account (SSO)/Webtop Account. A Webtop account (SSO) is assigned to all full-time county school employees. If you are not a full-time employee, please follow the steps below to create one.

The registration process will assist you in creating your SSO account. A valid email address is required when creating a SSO account. Applicants who are currently employed in a WV School System should already have a SSO account/Webtop account through their district. Applicants will need the SSO username and password to register and log in.

From the Certification Portal home page (https://wveis.k12.wv.us/certportal/), click the “Register” button to start the certification portal registration process.

The registration process will ask you several questions to determine if you have a West Virginia Department of Education certification record. If you are not in the system, the process will assist you in creating your certification record. If the system locates certification records for you, it will display basic account information for verification.

The last step in the registration process is to either create a SSO user account or locate your current SSO Account.

Once you have completed the registration process you can log into the Certification Portal and submit your application.
