

# Coaching in WV Universal Pre-K

*WV Universal Pre-K Virtual Leadership Institute Series*  
*10:00-11:30 A.M.*  
*December 15, 2020*

# ***Purpose and Research***

- Coaching models that support individual teachers improve teaching practices and student achievement more than other professional development.
- Coaching allows teachers to maintain an active role in their professional learning.
- Effective coaching benefits all, not just struggling teachers.
- Coaching is integrated in teachers' day-to-day activities- not just one more thing.

# Defining Coaching

In the landmark professional development glossary created by NAEYC (National Association for the Education of Young Children) and NACCRRA (now known as Child Care Aware of America), coaching is defined as:

**“a relationship-based process** led by an expert with specialized and adult learning, knowledge and skills, who often serves in a different professional role than the recipient(s). Coaching is designed to build capacity for specific professional dispositions, skills, and behaviors and is focused on goal-setting and achievement for an individual or group” (NAEYC & NACCRRA, 2011).

# Coaches

Instructional coaches, as defined in The Impact Cycle (Knight, 2018), (a) partner with teachers to (b) analyze current reality, (c) set goals, (d) identify and explain teaching strategies to hit goals, and (e) provide support until goals are met.

# ***WV Universal Pre-K Policy Updates and Coaching***

- Research illustrates that coaching is a high-yields practice that can produce more long-term quality outcomes than traditional professional learning alone.
- Head Start Performance Standards require research-based, coordinated coaching strategies for education staff.
- Recommends all WV Pre-K classrooms include an effective pre-k coaching model as part of the CQI process to best support the individualized professional learning needs of education staff.

# ***WV Universal Pre-K Policy Updates and Coaching***

**Effective pre-k coaching models are inclusive of the following:**

- Coaches who have an early childhood background;
- Ongoing support for coaches in implementation of the adopted coaching model;
- Alignment with the continuous quality improvement process to positively impact instructional strategies; and
- A collaborative partnership between the coach and coachee, rather than a punitive process for educator.

Although schools must be accountable for **helping all children achieve**, providing effective teaching for **all children in every classroom every day**, the Campaign is based on the belief that **schools cannot succeed alone**.

Engaged **communities** mobilized to remove barriers, expand opportunities, and assist parents in fulfilling their roles and responsibilities to serve as full partners in the success of their children are needed to assure student success.

The work is about **supporting communities and families** in the four focus areas of: **school readiness, attendance, high quality instruction, and extended learning**.

# Our Mission

To serve communities by leading a literacy campaign that connects stakeholders with research and resources in order to provide the best opportunities for every child.

# Identify Questions

These questions can be used to help teachers identify a PEERS goal. (Powerful, Emotionally compelling, Easy, Reachable, Student focused)

1. On a scale of 1-10, with 1 being the worst lesson you've taught and 10 being the best, how would you rank that lesson.
2. What pleased you about the lesson?
3. What would have to change to move the lesson closer to a 10?
4. What would your students be doing differently if your class was a 10?
5. Tell me more about what that would look like.
6. How could we measure that change?
7. Do you want that to be your goal?
8. If you could hit that goal, would it really matter to you?
9. What teaching strategy can you use to hit your goal?
10. What are your next steps?

# PEERS Goals

- **Powerful**- the goal is going to make a significant difference in students' lives and learning
- **Emotionally Compelling**- matters a lot to the teacher
- **Easy**- simple, clear, and easy to understand
- **Reachable**- identifies a measurable outcome and strategy
- **Student-focused**-provides clear feedback on whether changes made a difference in students' achievement, behavior, or attitudes

## The Three Ps: Personnel

- Who will coach?
- Who will be coached?
- How will you prepare coachees and coaches?

20

---

---

---

---

---

---

---

---

## Identifying Coaches

- Experience with young children
- Knowledge of the curriculum
- Understand adult learning principles
- Experience with policies, procedures and culture of grantee
- Supervisors who coach

21

---

---

---

---

---

---

---

---

## Identifying Coachees

- Not everyone receives coaching.
- Staff member may be a good candidate for coaching when he or she:
  - Is interested
  - Needs support
  - Has concerns about child outcomes progress
