Commented [SH1]: I'm not 100% about the wording of this one. @MaggieLuma I need your input.

The intention behind "usage patterns" is a little confusing. It also seems to imply that students are not explicitly taught phonics and are instead discovering as in an implicit model.

I think we need a bolder criteria when getting into the phonics piece. I'm going back to look at the K-5 document in order to capture their thinking.

SPECIFIC EVALUATION CRITERIA

2021-2027

Group II – English Language Arts - CCR Grade 7

All West Virginia teachers are responsible for classroom instruction that integrates content standards, technology, and dispositions for student success. In grade 7, students should be immersed in a literacy-rich environment and have numerous opportunities to read, discuss, and write to complex texts appropriate for seventh grade in order to meet college- and career-readiness expectations. The complexity of a text includes quantitative complexity (such as Lexile), qualitative complexity (such as figurative language, historical context, and layers of meaning), and reader and task considerations (such as student interest/motivation and instructional goal for reading). Over the course of the entire instructional day, students should be given opportunities to engage with a balance of literary and informational text and to write for a variety of purposes and audiences including an even distribution of argumentative, informative, and narrative writing. Students in seventh grade will continue enhancing skills in a developmentally-appropriate progression of standards. Following the skill progressions from sixth grade, the following chart highlights the college- and career-readiness indicators that will be developed in seventh grade:
