Code §18-5G-1, et seq. Discussion ensued regarding the effectiveness of virtual schools, child safety and social emotional well-being, connectivity, monitoring, financial responsibilities, expulsions, health and retirement benefits available to staff, and the awarding of diplomas.

Following discussion, President Hall called for a motion regarding Policy 3300. Mr. Campbell moved, and Dr. Wilson seconded, that Policy 3300 be approved effective 30 days from filing. Mrs. Sullivan issued the following statement and requested it be made a part of the minutes.

*The proposed changes to the existing charter school policy continue to alter the landscape, now even more radically.*

*With the creation of the West Virginia Professional Charter School Board as an additional authorizer, yet another level of government bureaucracy is created. This shadow board can undercut the decision-making role of county boards of education, local leaders entrusted to see to the well-being of their students.*

*The original policy limited virtual instruction. Under provisions of the proposed policy, full-time, for-profit, state-wide virtual charter schools – operated by national vendors – would be permitted to operate. Do we really want to commercialize our public education and outsource our children?*

*The pandemic opened our eyes to the challenges and disadvantages of remote learning. In February we as a Board went on record calling for the resumption of in-person instruction, stating (and I quote here) that “we recognize that in-person learning is the best mode in which to foster a student’s intellectual, social-emotional, and physical growth and well-being.” And at that time we gave counties a date certain to return students to their brick and mortar buildings.*

*Yet proposed policy revisions offer full-time virtual programs.*

*And of course there is the alarming issue of funds and other resources being diverted from public schools.*

*I am at a loss to understand the effort to undermine and erode our public schools.*

*We as a state need to focus on doing all we can to ensure that our public school students, regardless of their backgrounds, are being offered strong, focused, well-funded educational opportunities by highly qualified, credentialed professionals.*

Following additional discussion, President Hall called for the question the motion was carried with eight members voting yes, and one member, Mrs. Sullivan, voting no. (Copy appended to Official Minutes, Attachments P-1 and P-2.)

Mr. Dunlevy attended the WVASA annual conference. Dr. Wilson spoke regarding the way education has evolved and that the needs of children and schools are great. President Hall spoke regarding letters he has received regarding athletics and students not meeting the grade requirement and issued the following statement for the Board's consideration. "Recognizing the impact that the pandemic has had on the social emotional well-being of students and the resulting and lingering impact in connection to academic achievement, I would like the Board to direct the State Superintendent to develop options that counties may opt to use to allow students to participate in conditioning and practice as school opens even if the student has not yet received a 2.0 average. This will be a limited time option only, apply to conditioning and practice only, and will not be a waiver of the 2.0 rule. At this next meeting on August 11 the West Virginia Board of Education will then consider if there will be any waiver of the 2.0 rule for fall sports." Mrs. Sullivan spoke regarding credit recovery options which ties into the grade point average.
