COUNTY APPROVAL STATUS AND ACCREDITATION

To ensure each county board of education provides a thorough and efficient education for its students, the West Virginia Board of Education (WVBE) shall annually review county scorecards and efficiency profiles provided by the Office of Support & Accountability. County status will be reviewed and determined based on multiple measures of student performance and county operational efficiency.

The WVBE will review annually the information submitted by the WVDE and issue each county board of education an approval status.

W. Va. §18-2E-5. (l) School system approval. — The state board annually shall review the information submitted for each school system from the system of education performance measures and issue to each county board an approval status in compliance with federal law and established by state board rule.

Individual offices audit and/or monitor the WV Efficiency Standards throughout the school year and provide a determination of “Meets Requirements” or “Needs Assistance” to the Office of Support and Accountability for the annual profile.

Due to COVID-19 and lack of West Virginia General Summative Assessment data, West Virginia Balanced Scorecard results are not reflected in this report.
