

Elementary Math Bundles Three-Credit Hour Courses 2022-2023 | Professional Learning/ Training Catalog Schedule and Additional Details

DATES:

Rolling Enrollment: September 1, 2022 - April 14, 2023

Course Completion: May 19, 2023*

**Course work may be completed prior to May 19, 2023. The estimated time to complete three-credit hour course is 45 hours/5-6 weeks.*

PROCESS:

Course participants will:

- ▶ enroll for and move through course content and assignments as designed at their own pace.
- ▶ complete session checkpoints; content and classroom environment, mathematical habits of mind, activity planning-implementation-videotaping and reflection.
- ▶ provide facilitators 24-36 hours to review and post grades for course submissions.
- ▶ revise and re-submit assignments when necessary.

COURSE WORK:

Course work includes content readings and videos, and checkpoint assignments. All coursework must be completed and approved by May 19, 2023.

COURSE DELIVERY:

WVDE's Canvas Learning Management System (<https://wvde.instructure.com>)

COURSE REQUIREMENTS:

- ▶ Course submissions are to be met rubric guidelines.
- ▶ Certificates of completion and non-degree graduate credit will be awarded to participants who submit coursework unique to the 2022-2023 school year.
- ▶ All work associated with WVDE WVLeads courses is to be the original work of the course participant. Two (2) or more individuals may not submit the same or similar work. Copying the work of another person/ participant or from a copyrighted source, plagiarism, in any assignment or project is strictly forbidden. "Fair Use" of copyright materials does not apply to assignments associated with this course. Turn-it-In, an originality check program, has been activated for assignment submissions.

CERTIFICATION OF COMPLETION:

Upon module completion a certificate of completion will be sent to the participant's course catalog.
