

West Virginia Evidence-Based Practices in ESSA and IDEA

Resource Bank

Introduction

The Evidence-Based Practices in Secondary Transition Resource Bank (EBP Resource Bank) is a product of the West Virginia Department of Education Guidepost to Graduation (WVGtG) Team. The purpose of this resource bank is to provide information and resources to Local Educational Agencies (LEAs) across the state of West Virginia related to the implementation of evidence-based practices to improve graduation and dropout outcomes.

The evidence-based practices (EBPs) highlighted in this resource are based on a variety of publicly available research sources that synthesize key findings. The resources provided in this document have been compiled from a variety of reliable sources including national technical assistance centers, universities, and departments of education. These organizations are described, and website links are provided in Appendix A of this document. It is important to note that the resources provided in this resource bank are not endorsements by the West Virginia Department of Education but compiled as examples for local educational agencies to reference in their work to improve graduation outcomes for students with disabilities.

Evidence-based practices are specific interventions to teach skills to secondary students/youth with disabilities and are based on the results of intervention research. The evidence-based practices identified have been evaluated regarding the amount, type, and quality of the research conducted and are labeled as:

- » ESSA Tier 1 – Strong Evidence;
- » ESSA Tier 2 – Moderate Evidence;
- » ESSA Tier 3 – Promising Evidence; and
- » ESSA Tier 4 – Demonstrates a rationale.

These designations indicate confidence in the likely effectiveness of the intervention when implemented as defined and recommended. Each of the evidence-based practices are described in Table 1 on the following page.

Table 1. Description of Evidence-Based Practices

Evidence	Description
ESSA Tier 1	» Supported by one or more well-designed and well-implemented randomized control experimental studies » uses rigorous research designs » adheres to indicators of quality research
ESSA Tier 2	» Supported by one or more well-designed and well-implemented quasi-experimental studies » uses rigorous research designs » adheres to indicators of quality research
ESSA Tier 3	» Supported by one or more well-designed and well-implemented correlational studies (with statistical controls for selection bias)
ESSA Tier 4	» Practices that have a well-defined logic model or theory of action » are supported by research, » have some effort underway by an SEA, LEA, or outside research organization to determine their effectiveness

Organization and Format

This EBP Resource Bank is organized in alphabetical order under each Evidence type defined by ESSA and includes a description of the program or practice and related resources that LEAs can use to support the implementation of these practices in their site.

The Table of Contents lists the evidence-based practices and page numbers of the resources. If reading this document electronically, users can click on the name of the EBP within the Table of Contents and they will be directed to that section of this document.

The goal of the EBP Resource Bank is to offer West Virginia educators and educational leaders specific recommendations for strategies to increase graduation outcomes in secondary schools. The resources within this site will be continually updated as research evolves. If you have questions or resource recommendations, please contact ssip.wvde@k12.us.wv.

Acronyms Used in this Resource Bank

Below is a list of common acronyms used throughout the document.

EBP – evidence-based practices
ESSA – Every Student Succeeds Act
DRS – Department of Rehabilitation Services
IEP – Individualized Education Program
IES – Institute of Education Sciences
LEA – Local Educational Agency
OSEP – Office of Special Education Programs
USDE – United States Department of Education
VR – Vocational Rehabilitation
WVBE – West Virginia Board of Education
WVDE – West Virginia Department of Education
WVGtG - West Virginia Guideposts to Graduation
WVPTI – West Virginia Parent Training and Information, Inc.

ESSA Tier 1

Building Assets-Reducing Risks (BARR) Program

Evidence: ESSA Tier 1

BARR (Building Assets, Reducing Risks) is a proven model that improves the education system predicated on two pillars – relationships and data. It is designed to create strong schools and communities by empowering students, teachers, and families with data, so that schools can re-align existing resources to nurture a unified and personalized culture of support and success for every student, both inside and outside of the classroom.

BARR Related Resources

Resource	Description	Web Link
BARR Center Website	The BARR Center is a strengths-based educational model that provides schools with a comprehensive approach to meeting the academic, social, and emotional needs of all students through the power of data and relationships. This website provides information about training and coaching packages, research, resources, and podcasts.	BARR Center Website
BARR Model Handout	This BARR Model Handout, developed by the BARR Center, provides an overview of the BARR model including the research and impact of the program.	BARR Model Handout
BARR Administrator’s Toolkit	This BARR Administrator’s Toolkit, developed by the BARR Center, provides administrators with a variety of activities and resources to enhance relationships and collaboration across a school.	Enhancing Relationships and Morale: Toolkit for Administrators

Computer Assisted Instruction

Evidence: ESSA Tier 1

Computer-assisted instruction (CIA) is the use of a computer or other similar technology with the intention of improving students’ skills, knowledge or academic performance. This strategy offers an interactive format that can provide examples and feedback to students, while including multiple components such as graphics, photographs, audio, text and video.

Computer Assisted Instruction Related Resources

Resource	Description	Web Link
Evidence-Based Practice Brief: Computer Aided Instruction	This evidence-based practice brief by the National Professional Development Center on Autism Spectrum Disorders on computer-aided instruction includes the following components: an overview of the practice; additional research documenting its use in practice; and steps for implementation including a checklist to monitor fidelity.	Evidence-Based Practice Brief: Computer-Aided Instruction
Article: Using Computer-Assisted Instruction to Teach Science Vocabulary to Students with Autism Spectrum Disorder and Intellectual Disability	This study published in Rural Special Education Quarterly investigated the use of computer assisted instruction intervention package to teach middle school students with autism spectrum disorder and intellectual disability. Results showed a functional relation between the number of correct responses made during sessions and introduction of the CAI intervention. Implications for practice and suggestions for future research are also discussed. Download the full-text PDF from Research Gate. No login is required.	Using Computer-Assisted Instruction to Teach Science Vocabulary to Students With Autism Spectrum Disorder and Intellectual Disability

Differential Reinforcement

Evidence: ESSA Tier 1

Differential Reinforcement is defined as reinforcing only those responses within a response class that meet a specific criterion along some dimension(s) (i.e., frequency, topography, duration, latency, or magnitude) and placing all other responses in the class on extinction (Cooper et al., 2007, p. 693).

Differential Reinforcement Related Resources

IRIS Module: Section 8 Differential Reinforcement	This resource is a portion of an IRIS Center module on the topic of Differential Reinforcement. The module includes an overview of the strategy and steps for teachers to follow to implement Differential Reinforcement with their students.	Differential Reinforcement of Alternative Behavior
Differential Reinforcement Implementation Fidelity Checklist	This IRIS Center resource is an implementation fidelity checklist to monitor the effective implementation of Differential Reinforcement.	Implementation Fidelity Checklist
Differential Reinforcement of Alternative Behavior Information Brief	This information brief from the IRIS Center provides an overview of Differential Reinforcement and the steps educators can take to implement the strategy with their students.	Information Brief: Differential Reinforcement of Alternative Behavior

Dual Enrollment/Dual Credit

Evidence: ESSA Tier 1

Dual enrollment (DE) is one of many terms used to describe a program that allows high school students to take a college course and earn both high school and college credit. But access to college-level classes while in high school is not just about college credit. DE can also give students a jumpstart on learning about and preparing for careers. On average, dual enrollment has a positive impact on high school academics, high school graduation rates, college enrollment, college success, and college completion rates (USDE, September 2022).

Dual Enrollment Related Resources

Resource	Description	Web Link
US Department of Education Blog	This blog published by the United States Department of Education explains what dual enrollment is, the related research, and key strategies to implement dual enrollment programs.	USDE Blog: Dual Enrollment

WVBE Approval of County Dual Credit Policy Template	This resource is an official request form for approval of county dual credit policy. All local policies must be submitted to the West Virginia Department of Education (WVDE) on or before June 1st of the current year so that dual credit may be awarded for the upcoming school year. Upon approval by the WVBE, the policy itself will not need to be resubmitted unless it changes.	WVBE Approval of County Dual Credit Policy Template

Early Warning System

Evidence: ESSA Tier 1

An Early Warning System is a system based on student data to identify students who exhibit behavior or academic performance that puts them at risk of dropping out of school. Early warning systems help districts and schools pinpoint student achievement patterns and school climate issues that may contribute to students dropping out of school (e.g., Osher et al. 2007). Educators create early warning systems from readily available student data to identify students at risk of missing key educational milestones, to diagnose the needs of at-risk students, and to identify interventions that may help at-risk students get back on track to graduate.

Early Warning System Related Resources

Resource	Description	Web Link
Early Warning Intervention and Monitoring System Implementation Guide	This Early Warning Intervention and Monitoring System (EWIMS) Implementation Guide published by the American Institutes for Research (AIR) is a supporting document for schools and districts that are implementing an early warning system (EWS). An EWS is a platform that uses local, historical student data; research-based early warning indicators; and predictive analytics to accurately identify students who are in danger of not achieving key educational milestones, such as on-time graduation. WVDE uses ZOOMWV as it's single source for pre-k through grade 12 educational data.	EWIMS Implementation Guide

EnvisionIT Curriculum

Evidence: ESSA Tier 1

EnvisionIT is an online curriculum focused on informational technology that integrates instruction in reading, writing, and technology content for students at risk for and with disabilities (Rowe et al., 2021).

EnvisionIT Related Resources

Resource	Description	Web Link
EnVisionIT Curriculum Overview	EnvisionIT (EIT) is a free, evidence-based, standards-aligned, college and career readiness curriculum for 21st century students in middle and high school. EIT is a teacher-guided, digital curriculum for students with and without disabilities focused on helping students develop key literacy and career skills needed for the 21st century workplace. The publishers' site provides an overview of the curriculum and information about how to access the curriculum through different learning management systems.	What is EnvisionIT?
EnVisionIT Handout	This downloadable handout provides an overview of the Envision IT Curriculum including research, curriculum content, and step-by-step directions to access the free materials.	A College and Career Readiness Curriculum for 21st Century Students

Goal Setting

Evidence: ESSA Tier 1

Goal setting is identified as a research-based predictor of post-school education. The effect size is large. An example of goal setting from the contributing study included having a primary transition goal of going to college in the transition plan (Wei et al., 2016).

Goal Setting Related Resources

Resource	Description	Web Link

Writing Standards-Aligned IEPs for Transition: "Need to Know" PaTTAN

Internships

Evidence: ESSA Tier 1

Internships are formal arrangements (i.e., paid or unpaid) whereby a youth is assigned specific tasks in a workplace over a predetermined period of time (WIOA sec. 134(c)(2)(A)(xii)(VII)).

Internships Related Resources

Recruiting Students with Disabilities to Your Internship	This resource provides information on how to include people with disabilities in your workforce, expectations regarding accommodations, and a list of organizations for further information and assistance.	Recruiting Students with Disabilities to Your Internship

Proactive Attendance Intervention

Evidence: ESSA Tier 1

If data shows high rates of absenteeism, take steps to help students, parents, and school staff understand the importance of attending school daily. Monitor the attendance of all students and proactively intervene when students show early signs of attendance problems (National Center for Education Evaluation and Regional Assistance (NCEE), Institute of Education Sciences, U.S. Department of Education, 2017).

Proactive Attendance Intervention Related Resources

Attendance Self-Assessment Tools	Use these tools to gain a deeper understanding of what is and could be happening to improve attendance at a school or district. They are also excellent tools for laying the foundation for a team of key stakeholders to begin working together to reduce student absences.	Attendance Self-Assessment Tools
Student Attendance Success Plans	The Student Attendance Success Plan is designed to help parents track their children's attendance and work with teachers to set appropriate goals. Each Student Attendance Success Plan includes a calendar for the current school year. Plan templates can be found for early childhood through high school.	Student Attendance Success Plans
Attendance Messaging Resources	We know that partners across the community can help schools and parents reduce absenteeism, but what can they do and how can you convince them to join in? These handouts should help you persuade community partners to get started on the important work on improving school achievement by reducing chronic absence.	Attendance Messaging Resources

Proactive Attendance Intervention Related Resources (Continued)

Resource	Description	Web Link
Attendance Works: Handout for Families	Parents want their children to do well in school, but many don't fully understand the connection between chronic absence and a student's academic achievement. These flyers can help build the families' understanding and habit of attendance. Flyers are available in multiple languages and information is included about customizing the handouts for your schools.	Handout for Families
Attendance Video Library	This video page is a compilation of Attendance Works videos related to chronic absenteeism that may be used in a variety of ways to communicate the importance of attendance.	Attendance Video Library
Spring Slump Attendance Resources	In the weeks before and after a school's spring break, drops in attendance are common. These resources from Attendance Works will help schools proactively address the Spring Slump including social media materials.	Spring Attendance Slump Resources

Self-Determined Learning Model of Instruction (SDLMI)

Evidence: ESSA Tier 1

The Self-Determined Learning Model of Instruction (SDLMI) is an instructional framework that teaches students to set goals, make a plan to achieve those goals, and monitor progress towards goals (i.e., engage in self-directed and self-regulated learning) (Lee et al., 2008; Raley et al., 2018; Shogren et al., 2018; Wehmeyer et al., 2012, 2013) (Rowe et al., 2021)).

Self-Determined Learning Model of Instruction Related Resources

SDLMI: Promoting Implementation Fidelity Article	This study on the implementation of SDLMI was funded by the Institute of Education Sciences, Department of Education and led by the University of Kansas in partnership with the Maryland Coalition of Inclusive education. The purpose of this paper is: (a) to describe a framework for conceptualizing fidelity of implementation factors that influence fidelity when evaluating a complex intervention like the SDLMI and (b) to present initial content validity and internal consistency of a new measure designed to assess specific aspects of fidelity of implementation of the SDLMI in inclusive, general education classrooms. Implications and future directions for research in implementation science, special education, and self-determination interventions are described.	The Self-Determined Learning Model of Instruction: Promoting Implementation Fidelity

ESSA Tier 2

Adult Advocate

Evidence: ESSA Tier 2

A trained adult advocate can help these students by providing individualized support to meet their academic, personal, and emotional needs. An advocate is a student’s “go-to person” for the resources and support needed to graduate, and typically provides these supports for the entire time a student is enrolled in the school, or, at a minimum, for a full school year. Advocates can be school staff or not employed by the school district such as graduation coaches, transition specialists, case managers, or Communities in Schools personnel. Advocates can identify unmet needs and provide or coordinate more intense, individualized support to help students get back on track for graduation.

Adult Advocate Related Resources

Resource	Description	Web Link
Preventing Dropout in Secondary Schools (p. 20-27)	The Institute of Education Sciences (IES) publishes practice guides to provide educators with the best available evidence and expertise on current challenges in education. The goal of this practice guide is to offer educators specific, evidence-based recommendations that address the challenges of preventing dropout in secondary schools. Recommendation 2 includes assigning an adult advocate for students in need of intervention to graduate. Steps to implementing this recommendation are also shared along with potential barriers.	Preventing Dropout in Secondary Schools
West Virginia Communities in Schools	Communities in Schools (CIS) is a youth-serving and dropout prevention organization. The mission of CIS is to link community resources and provide direct services to help young people succeed, stay in school, and prepare for life. This resource provides an overview of the Communities in Schools model and West Virginia school and site coordinator information.	WV Communities in Schools

College Entry Assistance

Evidence: ESSA Tier 2

Low-income and first-generation students often face challenges in completing the steps to college entry such as taking college admissions tests, searching for colleges, submitting college applications, and selecting a college. High schools should engage students in the college entry process, providing them hands-on assistance for each step. This includes activities to enhance students' ability to complete the college application process, assist in the college search, coordinating college visits and coursework in financial literacy as early as grade 9.

College Entry Assistance Related Resources

Resource	Description	Web Link
College Search Resources	The U.S. Department of Education’s college search tool, College Scorecard, is a way to find and compare colleges and career schools that may fit your needs. It provides data on college costs, graduation rates, post-college earnings, and other useful information to help you make the best decision about where to go to school, making the best use of your financial aid.	College Scorecard
Preparing for College Checklists	Federal Student Aid provides checklists with the steps you can take to help students and families chances of getting into—and being able to afford—the school of their choice. Resources include checklists for	Preparing for College Checklists
SAT and ACT	Many U.S. colleges require that students submit standardized test scores as part of their application packages. For most undergraduate programs, you’ll have to take either the SAT® or the ACT® Test.	College Board SAT ACT
Financial Aid Resources	Financial aid is money to help pay for college or career school. Grants, work-study, loans, and scholarships help make college or career school affordable. The StudentAid.gov site provides information about federal grants, loans, and work-study jobs and how they can help fund college expenses.	Financial Aid Resources

Parent Training in Transition

Evidence: ESSA Tier 2

Parent training is instruction that occurs between educators or service providers and parents where parents study about a single topic or a small section of a broad topic for a given period of time (Rowe et al., 2021).

Parent Training in Transition Related Resources

Resource	Description	Web Link
West Virginia Parent Training and Information Inc.	The West Virginia Parent Training and Information, Inc. (WVPTI) is a 501(c)(3) non-profit parent organization committed to improving the lives and education of ALL children through a special emphasis on children and youth with all disabilities and special healthcare needs. WVPTI serves parents and families of a child or youth from birth to age 26 with special needs and offers training content on transition.	Support and Training WVPTI
Using Parent Training to Promote Parent Knowledge of Transition Services	Parents were trained using different methods (face-to-face/brochure, computer-aided instruction, and face-to-face) to increase their knowledge of transition requirements (writing goals, determining service, and agency supports) (Rowe & Test 2010; Young et al. 2016).	Using Parent Training to Promote Parent Knowledge of Transition Services

Quick Wins: Engaging High School Parents	This WVDE resource provides five (5) strategies and quick wins for school administrators to encourage family engagement for secondary students.	Quick Wins: Engaging High School Parents

Peer Assisted Learning Strategies

Evidence: ESSA Tier 2

Peer tutoring is a widely researched practice across ages, grade levels, and subject areas. The intervention allows students to receive one-to-one assistance and promotes academic and social development for both the tutor and tutee. The strategy is supported by a strong research base (e.g., Calhoon, Al Otaiba, Cihak, King, & Avalos, 2007; Kunsch, Jitendra, & Sood, 2007; Vasquez & Slocum, 2012).

PALS: A Reading Strategy for High School	This IRIS module outlines the benefits of implementing PALS for high school, a peer tutoring strategy in which students work in pairs to strengthen their reading skills. Also included are step-by-step instructions for each of the three PALS activities as well as printable PALS materials.	PALS: A Reading Strategy for High School

Whose Future Is It Anyway? Curriculum

Evidence: ESSA Tier 2

Whose Future Is It? is a published curriculum that teaches students how to be involved in their IEP process (Rowe et al., 2019). Rocket Reader is a computer software program that allows students to navigate through the Whose Future Is It? book with read aloud and a playback option (Lee et al., 2011; Rowe et al., 2021).

Whose Future Is It Anyway? Related Resources

Resource	Description	Web Link
Whose Future Is It Anyway? Curriculum	Whose Future Is It Anyway? helps prepare students for their IEP meetings and gain self-determination skills through six sections that contain 36 lesson sessions provided for free by the Zarrow Institute. The lesson package comes with a Coach's Guide (PDF) that outlines the lessons, how to teach them, the roles of the students and teachers, as well as expected outcomes.	Whose Future Is It Anyway? 2nd Edition
Whose Future is it Anyway? Curriculum - Attainment Company	The Attainment Company has published the Whose Future is it Anyway? Curriculum and materials start at \$295 for the introductory kit. This curriculum will provide students with the opportunity to acquire skills to increase their self-awareness, problem-solving, decision-making, goal-setting, and small-group communication skills.	Whose Future Is It?

ESSA Tier 3/4

Chaining

Evidence: ESSA Tier 3/4

Chaining Strategies are a way to teach youth to perform a sequence of tasks or steps. The job coach, teacher or trainer first analyzes the task to be performed, identifying each smaller step necessary to complete the task. This is known as ‘task analysis.’ The teacher or trainer then guides the youth to learn each step. The goal is to have the youth successfully/accurately complete the entire activity. Variations of the Chaining Strategy are Backwards Chaining, Forward Chaining, and Total Task Chaining. Prompting is used in conjunction with chaining to teach the individual skills.

Chaining Related Resources

Resource	Description	Web Link
OCALI Chaining Professional Development	This OCALI professional development resources on chaining was created to improve practitioner’s knowledge and skill of evidence-based practices. These free materials include a PowerPoint slide deck that provides the user with information about chaining and prompting. Additional handouts and links to resources are offered in each session.	Focus on Chaining and Prompting- Evidence Based Transition Practices
Chaining Overview	This chaining overview resource, produced by the Kansas Technical Assistance System Network, includes a video overview of Forward and Backward Chaining and additional information and research about the practices.	Chaining

Constant Time Delay

Evidence: ESSA Tier 3/4

Constant time delay is a variation of time delay, a prompting procedure that uses variations in the time intervals between presentation of the natural stimulus and the response prompt. Time delay transfers stimulus control from a prompt to the natural stimulus by delaying the presentation of the prompt following the presentation of the natural stimulus. Constant time delay is implemented by presenting several trials using a 0-second delay between the presentation of the natural stimulus and the response prompt. The trials that follow the simultaneous prompt condition apply a fixed time delay (e.g., 3 seconds or 5 seconds; Cooper et al., 2007).

Constant Time Delay Related Resources

Resource	Description	Web Link
Time Delay: Step-by-Step Guide	This step-by-step guide outlines how to plan for, use, and monitor the time delay practice. There are two-time delay procedures - Constant Time Delay and Progressive Time Delay. Each step is explained in the step-by-step guide below:	Time Delay Step-by-Step Guide

Direct Instruction of Main Idea

Evidence: ESSA Tier 3/4

Explicit, carefully sequenced and scripted model of instruction that includes (a) an introduction/review to set the stage for learning, (b) modeling of the expected learning outcomes with clear explanations and examples, (c) guided practice, (d) closure of lesson highlighting content covered, (e) independent practice, and (f) evaluation (Coughlin, 2011; Stockard, 2011).

Direct Instruction of Main Idea Related Resources

Resource	Description	Web Link
The Main Idea Strategy Article	This article introduces the Main Idea Strategy - a strategy to improve the performance of students with disabilities and students who perform poorly on reading comprehension tasks. The rationale, research background, and detailed implementation information are presented.	The Main Idea Strategy: A Strategy to Improve Reading Comprehension Through Inferential Thinking
IRIS Module: Collaborative Strategic Reading	This module from the IRIS Center, outlines Collaborative Strategic Reading (CSR), a strategy for helping students to improve their reading comprehension skills. In CSR, students work together in small groups to apply comprehension strategies as they read text from a content area, such as social studies or science (estimated time one hour).	CSR: A Reading Comprehension Strategy

Family Involvement

Evidence: ESSA Tier 3/4

Through the years, research has consistently shown that the education of youth with disabilities becomes more effective when families have meaningful opportunities to participate in a youth's education in both school and home. This website offers various topics on how families can stay involved with their child's transition plan to ensure their child graduates.

Family Involvement Related Resources

My Life Curriculum

Evidence: ESSA Tier 3/4

Previously known as the Take Charge Curriculum, My Life is an integrated self-determination promotion approach that includes student coaching, mentorship, peer support, and parent support (Powers et al., 1998). The Take Charge Curriculum is a published curriculum that includes student coaching, mentorship, peer support, and parent support (Geenen et al., 2013; Powers et al., 2012; Rowe et al., 2021).

Prompting

Evidence: ESSA Tier 3/4

Prompting is the use of verbal, gestural, visual or physical assistance provided to learners to support them in acquiring or engaging in a targeted behavior or skill. When developing a prompting strategy, it is important to determine the type of prompt that matches the youth's learning preferences and styles.

Step-by-Step Least-to-Most Prompting	This module developed by the National Professional Development Center on Autism Spectrum Disorders teaches the least-to-most prompting strategy. The least-to-most prompting procedure goes by many different names, including the system of least prompts and increasing assistance. The least-to-most prompting procedure can be used with discrete (single behaviors of relatively short duration) and chained skills (a series of behaviors sequenced together to form a complex skill).	Step-by-Step Instructions Least-to-Most Prompting
Decision Guide for Planning Systematic Prompting	The decision guide for planning systematic prompting is a tool developed by PaTTN for determining the type of prompting to use: Least Intrusive Prompting, Time Delay of a Response Prompt and Most to Least Prompting.	Decision Guide for Planning Systematic Prompting
Implementing Simultaneous Prompting	This resource was developed by the National Professional Development Center on Autism Spectrum Disorders. The simultaneous prompting procedure can be used with discrete (single responses of relatively short duration) and chained skills (a number of behaviors sequenced together to perform a more complex skill). The prompting steps are explained in the procedure.	Steps for Implementation: Simultaneous Prompting
Steps for Implementation: Progressive Time Delay	Time delay is a practice that focuses on fading the use of prompts during instructional activities while also delivering reinforcement to increase the likelihood that target skills/behaviors will be used in the future. This resource published by the National Professional Development Center on Autism Spectrum Disorders, provides an overview of the time delay strategy and steps to implement it.	Steps for Implementation: Time Delay
Prompting: Impact on Inferences about Student Learning	This CEEDAR Center resource will increase pre-service and in-service educators' understanding of and planning for the use of prompting to facilitate learning and improve educational outcomes for students with moderate to severe disabilities.	Severe Developmental Disabilities Course Enhancement Module

Self-Advocacy

Evidence: ESSA Tier 3/4

Self-advocacy is knowing your rights and having the ability to effectively communicate your needs, interests and desires. Self-advocacy, one part of self-determination, is the ability to speak for yourself and seek what you need for your life. This includes risk-taking, negotiating, the ability to respond to conflict/criticism, and persistence to achieve your goals.

Self-Advocacy Strategy Curriculum Related Resources

Resource	Description	Web Link
Using the Self-Advocacy Strategy to Teach Student Involvement in the IEP Practice Description	Self-advocacy Strategy (SAS) is a published self-determination curriculum (Van Reusen et al., 1994) designed to prepare students to participate in education or transition planning conferences (Hammer, 2004; Lancaster et al., 2002; Test & Neal, 2004; Van Reusen & Boss, 1994) (Rowe et al., 2021). This Practice Description, produced by NACT:C, provides an overview of the Self-Advocacy Strategy to Teach Student Involvement in the IEP Process and a link to a site where users can purchase a copy of the curriculum for \$20.00. Self-Advocacy Online	This resource by the Research and Training Center on Community Living at The University of Minnesota provides a quick overview video of the information available on the website. The website includes videos of students with disabilities telling their stories about how they self-advocate for themselves, their experiences with the challenges and successes of self-advocacy, and numerous videos and information about locating advocacy groups, Employment First, Social Supporters, and decision-making.	Self Advocacy Online

Self Determination

Evidence: ESSA Tier 3/4

Self-determination is believing you can control your own destiny. Self-determination is a combination of attitudes and abilities that lead people to set goals for themselves, and to take the initiative to reach these goals. It is about being in charge but is not necessarily the same thing as self-sufficiency or independence. It means making your own choices, learning to effectively solve problems, and taking control and responsibility for one's life. Practicing self-determination also means one experiences the consequences of making choices.

Self-Management Instruction

Evidence: ESSA Tier 3/4

Also known as self-evaluation, self-management “requires that a person monitor, rate, and compare some aspect of his or her behavior to an external standard or criteria” (Reid et al., 2005, p. 363). Self-management has also been called: self-monitoring (n=5 studies), self-evaluation (n= 2 studies), self-instruction (n=2 studies), goal setting (n= 1 study), strategy instruction (n= 1 study). In addition, components can be combined (n=7 studies).

The SM module will take approximately 1.5 to 2 hours to complete and requires a free account to register for the module.	Self-management AFIRM

Self-Regulation

Evidence: ESSA Tier 3/4

Self-regulation is defined as a procedure whereby a person observes his behavior systematically and records the occurrence or nonoccurrence of a target behavior (Cooper, Heron, & Heward, 2007). The procedure is also called self-monitoring and self-observation.

Self-Monitoring Related Resources

Simulated Instruction

Evidence: ESSA Tier 3/4

Simulation is defined as using materials and situations in the classroom that approximate the natural stimulus conditions and response topography. Instructional simulations are when students use a model of behavior to gain a better understanding of that behavior, they are doing a simulation. For example, when students are assigned roles as buyers and sellers of some goods and asked to strike deals to exchange the goods, they are learning about market behavior by simulating a market.

Simulated Instruction Related Resources

There is a cost associated with some of the curriculums included in this resource.	Social Skills Curriculum for Individuals on the Autism Spectrum

Structured Inquiry

Evidence: ESSA Tier 3/4

Structured Inquiry is a strategy where the teacher provides students with a hands-on problem to investigate, as well as the procedures, and materials, but does not inform them of expected outcomes. Students are to discover relationships between variables or otherwise generalize from data collected” (Colburn, 2000, p. 42).

Work-Based Learning

Evidence: ESSA Tier 3/4

Work-Based learning (WBL) is the umbrella term used to identify activities which collaboratively engage employers and schools in providing structured learning experiences for students. These experiences focus on assisting students with developing broad, transferable skills for postsecondary education and the workplace. A quality WBL program can make school-based learning more relevant by providing students with the opportunity to apply knowledge and skills learned in the classroom to real world situations.

Work-Based Learning Related Resources

This document provides an overview of the organizations primarily referenced throughout the West Virginia Guideposts to Graduation *Evidence-Based Practices in Secondary Transition Resource Bank*. A description of each organization includes an overview of the organization, the services they provide, and a link to their website.

Collaboration for Effective Educator Development, Accountability, and Reform (CEEDAR) Center

The Collaboration for Effective Educator Development, Accountability, and Reform (CEEDAR) Center's primary objective is to partner with states to provide opportunities to learn for teachers and leaders. Based at the University of Florida, the Center's mission is to provide frontline assistance to state education agencies, institutions of higher education, and local education agencies. The goal is to advance policy and practice that results in aligned professional learning systems that attract, develop, support, and retain high quality educators with the competencies to provide core and specialized instruction to ensure all students, including students with disabilities, exit school college and career ready. These resources are free and do not require an account.

Website Link: <https://cedar.education.ufl.edu/>

Collaborative for Academic, Social, and Emotional Learning (CASEL)

The mission of CASEL is to help make evidence-based social and emotional learning (SEL) an integral part of education from preschool through high school. As a thought leaders, field builder, and advocate, CASEL spans the fields of research, practice, and policy to achieve their goals, create tools and resources to help districts, schools, and communities with the successful implementation and sustainability of integrated, evidence-based SEL programs.

Website Link: <https://casel.org/>

Center for Applied Special Technology (CAST)

Located near Boston, CAST is a nonprofit education research and development organization that created the Universal Design for Learning framework and UDL Guidelines, now used the world over to make learning more inclusive. The acronym "CAST" derives from the original name of our organization, Center for Applied Special Technology. CAST offers many opportunities at all levels to build understanding and practice of Universal Design for Learning (UDL), accessibility, and professional development. CAST provides several free resources and training opportunities. An account is not required to access most free resources. Courses require an account and have a cost depending on the course.

Website Link: <https://www.cast.org/>

Council for Exceptional Children (CEC)

The Council for Exceptional Children (CEC) is the largest international professional organization dedicated to improving the success of children and youth with disabilities and/or gifts and talents. CEC advocates for appropriate governmental policies, sets professional standards, provides professional development, and helps professionals obtain conditions and resources necessary for effective professional practice. CEC is known as THE source for information,

resources, and professional development for special educators. Membership to CEC is required to access materials and professional development.

Website Link: <https://exceptionalchildren.org/>

The IRIS Center

The IRIS Center, out of Vanderbilt University, is a national center dedicated to improving education outcomes for all children, especially those with disabilities from birth through age twenty-one, through the use of effective evidence-based practices and interventions. IRIS is supported by the U.S. Department of Education's Office of Special Education Programs and is located at Vanderbilt University's Peabody College. The IRIS Center develops and disseminates free, engaging online resources about evidence-based instructional and behavioral practices to support the education of all students, particularly struggling learners and those with disabilities. Login is not required for most free resources but if you would like to access the certificates offered for their courses, users will need to set up an account.

Website Link: <https://iris.peabody.vanderbilt.edu/>

The National Professional Development Center on Autism Spectrum Disorder

The National Professional Development Center on Autism Spectrum Disorder (NPDC) was funded by the Office of Special Education Programs in the US Department of Education from 2007-2014. The work of the NPDC was a collaboration among three universities—the University of North Carolina at Chapel Hill, the University of Wisconsin at Madison, and the MIND Institute, University of California-Davis. The goal of the NPDC was to promote the use of evidence-based practices (EBPs) for children and youth with ASD, birth to 22 years of age. This was accomplished through a comprehensive professional development process at state and local levels.

Website Link: <https://autismpdc.fpg.unc.edu/about-npdc>

The National Technical Assistance Center on Transition: The Collaborative (NTACT:C)

NTACT:C is a Technical Assistance Center co-funded by the U.S. Department of Education's Office of Special Education Programs (OSEP) and the Rehabilitation Services Administration (RSA). NTACT provides information, tools, and support to assist multiple stakeholders in delivering effective services and instruction for secondary students and out-of-school youth with disabilities. The website provides several effective practices for delivering transition services to students with disabilities. The resources are free but a login is required to access most resources.

Website Link: <https://transitionta.org/>

The Ohio Center for Autism and Low Incidence (OCALI)

OCALI, a project of the Educational Service Center of Central Ohio (ESCCO), is a recognized global leader in creating and connecting resources and relationships to ensure that people with disabilities have the opportunity to live their best lives for their whole lives. OCALI informs public policy and develops and deploys practices grounded in linking research to real life. OCALI's organizational structure includes ten Centers that collectively focus on local and statewide-capacity building while strengthening policies and resources that guide services and support for people with disabilities, as well as for families, educators, service providers, and professionals. OCALI serves families, educators, and professionals working with infants, preschool and school-

age children, and adults with autism spectrum disorders (ASD) and low-incidence disabilities – including hearing impairments, visual impairments, multiple disabilities, orthopedic impairments, and other health impairments. OCALI develops and delivers high-quality professional development and technical assistance to educators and parents through the State Support Teams (SST) and the Ohio Coalition for the Education for Children with Disabilities. Free materials for professional development training can be accessed on their website. A login is not required.

Website Link: <https://ocali.org/>

Office of Special Education and Rehabilitation Services (OSERS)

The United States Department of Education OSERS understands the many challenges still facing individuals with disabilities and their families. Therefore, OSERS is committed to improving results and outcomes for people with disabilities of all ages. OSERS supports programs that serve millions of children, youth and adults with disabilities. Through its two main components, OSERS guides and supports a comprehensive array of programs and projects that support individuals with disabilities: Office of Special Education Programs (OSEP) projects and programs and Rehabilitation Services Administration (RSA) projects and programs.

TIES Center

TIES Center, out of the University of Minnesota, works with states, districts, and schools to support the movement of students with disabilities from less inclusive to more inclusive environments. TIES brings together recognized experts in inclusive education to provide evidence-based resources, tools, curricula, and reports so students with significant cognitive disabilities can learn in classrooms with their non-disabled peers.
