

Chain of Infection Extension Activity

Will your group survive the neurological virus outbreak?

Choose your group name:

Who is in your group?

Choose ten items for your “bug out bag”: List them here

Where will you hide your bug out bag? How will your group get together to escape with the bag?

Choose your transportation for the outbreak:

What will it use as fuel?

What will you take as food?

How will you find your way to your escape destination?

How will you find out when it is safe to return?

How will you get news from the outside world?

What if someone in your group becomes contaminated? What will you do?
