

VITAL SIGNS

What Temperature Is It?

DIRECTIONS: During class, explain to the students that you are going to ask the below 5 temperature questions. The students who get all 5, or the most out of five correct, win. Award those students a prize.

TEMPERATURE QUESTIONS

1. At what temperature does water freeze?
2. At what temperature does water boil?
3. What is normal body temperature?
4. What is the danger zone temperature for food?
5. What is the difference between Fahrenheit and Celsius?

After the activity, discuss the importance of recognizing normal body temperatures in children as well as temperatures that should cause concern.

Materials Needed:

1. The above temperature questions
2. Prizes

Preparation Required:

1. Gather materials needed.
2. Prepare prizes.
