Sarah Armstrong Tucker, Ph.D., Ex Officio
Chancellor
West Virginia Higher Education Policy Commission
West Virginia Council for Community and Technical College Education

Michele L. Blatt, Ex Officio
State Superintendent of Schools
West Virginia Department of Education

MESSAGE

Congratulations, 2023-24 Mathematical Habits of Mind Poster Contest Winners. It is a pleasure to recognize you at the August 2024 meeting of the West Virginia Board of Education. We join our board members to celebrate not only your artistic ability, but also your ability to creatively illustrate how math is a part of our everyday lives. We hope that you will continue to seek opportunities to pursue your passions and explore learning outside of the classroom.

Your teachers are to be commended for encouraging you to participate in this contest and offering you the guidance to submit exemplary work. We are certain this will be one of many accomplishments in your academic journey, and we hope you will remain curious and enthusiastic about learning new things.

You should be proud to know your artwork inspired posters that will be prominently displayed in schools across the state. Again, congratulations and we wish you the best in the coming school year.

Nancy J. White
President,
West Virginia Board of Education

Michele L. Blatt
West Virginia
Superintendent of Schools

ABOUT THE CONTEST

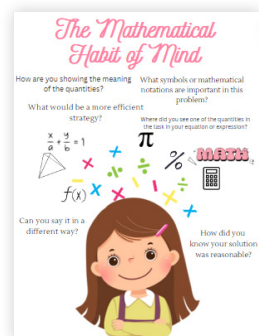

In an effort to include students' voices in the launch of the Unite with Numeracy campaign, the West Virginia Department of Education held a poster contest last school year. Students from all grade levels were invited to submit their ideas/artwork on the eight Mathematical Habits of Mind. Judges selected winners, and their submissions were the inspiration for the final designs. An entry was also selected to represent the overall initiative. Teachers will display the posters in their schools and classrooms statewide to promote how math influences our daily lives. Special thanks to the 205 students who participated in the contest and congratulations to the artists whose work was selected to represent this important initiative.
