Mr. Micah Whitlow, Director, Office of School Facilities and Dr. Tom Williams, Kanawha County Superintendent, provided the Board with information supporting Kanawha County Board of Education's need to amend their CEFP to change the priority list and include additional mergers and consolidations. If approved, the CEFP would include a provision that Belle Elementary School, Malden Elementary School, Mary Ingles Elementary School, and Midland Trail Elementary School be consolidated into a new Eastern Kanawha Elementary Center, pending a successful grant application to the SBA as a top priority. The proposed amendment also included the closure and merger of McKinley Middle School into Hayes Middle School and the closure and merger of East Bank Middle School into Dupont Middle School. The proposed middle school closures are expected to occur at the end of the 2024-2025 school year. Dr. Williams explained that the changes are proposed due to a decrease in state aid funding driven by a decrease in student enrollment.

closures, and the statutory requirements for county boards of education to be financially responsible. President White explained that county boards of education cannot sustain operating at previous capacities in an environment of continual decreasing enrollment. President White explained that while the Board sympathized with those affected by school closures, the Board must support actions that provide secure and sustainable financial footing for West Virginia's educational systems.
